So the Bismarck Area Republicans are getting back to doing our Lincoln Day celebration night after taking some time off due to Covid. As you know the speeches are not formal so I was just thinking of having each of you speak for 10 minutes reflecting on your time in office or whatever you would want. Thoughts?? AGB

ATTORNEY GENERAL ALLIANCE

OVERVIEW

Year in Review

Thanks to the contribution of many, 2021 proved to be a BIG year for the Cannabis Project. Throughout the year, we convened stakeholders in both virtual and in-person forums, supported bipartisan State AG activity, published biannual newsletters, collaborated with public and private sector experts on emerging issues, and assisted with multi-jurisdictional collaboration efforts to protect public health and safety.

We want to offer a special thanks to the many individuals and offices who volunteered extensive time and expertise supporting the publication of the **Cannabis Law Deskbook.** We are fortunate to announce that the **Cannabis Law Deskbook** is now available as an online Secondary Source for WestLaw subscribers. If you have questions about your access, please contact your WestLaw subscription administrator for more information.

In reflecting on the past year, four broad trends emerge across the cannabis landscape.

Program expansion. At various points throughout the year, over a half-dozen states entered the early phases of developing new intrastate adult-use cannabis markets in response to voter mandates or legislative enactments, including Arizona, Connecticut, New York, New Jersey, Montana, Virginia, and Vermont. As millions more Americans will soon be able to purchase state legalized cannabis, this rapid expansion presents both opportunities and challenges. Primary focal points will include harmonizing and standardizing across state lines through interstate collaboration and coordination, as well as ensuring new state markets create safe and stable supply chains that incentivize market participation and reduce the impacts of illegal activity.

Delta-8 THC and other underregulated products. This rapid intrastate expansion was coupled with the rise of a marketplace for cannabis products containing new and unforeseen cannabis isomers, including Delta-8 THC, Delta-10 THC, CBG, and CBN. These products are available in markets operating with questionable legality. As these products are subject to very little, if any, federal or state regulatory oversight, consumers cannot be ensured of safe and secure manufacturing supply chains or techniques. Indeed, market research from both private and public entities suggests many of the available products contain a high degree of harmful additives and are a potential source of an increase of adverse health events. The rise of products that contain unregulated psychoactive THC isomers represents a source of concern for law enforcement, regulators, and consumer protection and public health advocates.

Illegal activity. Despite the expansion of intrastate cannabis programs, the size and scope of the illicit cannabis market has not decreased. In certain jurisdictions, sales from illicit cannabis suppliers outpaces legal and licensed cannabis activity. Illicit cannabis operators lack incentives to grow and manufacture products that are free from harmful contaminants such as pesticides, molds, heavy metals and harmful solvents. Moreover, illicit cultivations are often the site of serious environmental impacts including overwatering, chemical displacement, and illegal use of public and protected lands, as well as potential human trafficking and violent crimes. Finally, illicit cannabis products, like look-alike candy and packaged goods, are sold through deceptive practices and meant to entice youth consumption.

Social Equity. Nearly all jurisdictions permitting adult-use cannabis are grappling with how best to center social equity within their state programs. Two articles below describe the work to date. Cat Packer, Executive Director of the City of Los Angelesâ€™ cannabis program and Cannabis Law Deskbook author, reminds us, *â€œe[e]quity is a responsibility of all those in public service. Governments at all levels must fully account for the harms of the War on Drugs, which include harms experienced by way of cannabis prohibition and its enforcement.*â€ Social equity as a responsibility for cannabis public policy makers, Cannabis Law Deskbook Â§

Body

7:2 (2021-2022 ed.)

Social equity programs seek two main objectives: Rectifying harms caused by disproportionate enforcement of cannabis prohibition, and expanding opportunities in the cannabis industry for those communities and individuals harmed. Programs include offering pathways for individuals to obtain collateral relief for qualifying past convictions (e.g. record sealing, expungement, or pardons); reinvesting tax revenue collected from cannabis sales into communities through grant programs to nonprofit organizations; and expanding opportunities for ownership and employment within intrastate markets through licensing, access to capital for owners, and educational training. Designing and implementing these programs with efficiency, effectiveness, and with low litigation risk, is a challenge but possible through collaboration, constant data collection, and stakeholder feedback.

As the AGAâ€™s Cannabis Project prepares for 2022 programming, we expect each of these issues will continue to draw attention from both public and private participants. We welcome your feedback on future programming and look forward to your participation.

Have a happy, healthy, and safe New Year!

ATTORNEY GENERAL ACTIVITY

California Attorney General Bonta Urges Prosecuting Agencies to Work with Courts to Prioritize Relief for Californians with Outdated Cannabis Convictions

Californiaâ€™s AB 1793 is intended to streamline the process for individuals to

Body	obtain relief for past cannabis convictions by requiring the CA DOJ to review records in the state criminal database and identify convictions which are eligible for relief. Attorney General Bonta stated that â€œsince this law went into effect, tens of thousands of Californians have been able to turn the page and make a fresh start â€" but unfortunately there are still some who are waiting for relief. I urge counties to prioritize processing their records so that these Californians can finally get the relief they deserve. My team is available as a resource, and we won't stop working until every Californian eligible for relief under AB 1793 is experiencing the lawâ€™s intended benefits.â€ Read more from the CA DOJ Press Release HERE. **FEDERAL ACTIVITY** **SAFE Banking Act Withheld from the National Defense Authorization Act** Earlier this fall, the House of Representatives included the Secure and Fair Enforcement Banking Act (SAFE) in the NDAA, which would have created a safe harbor for the financial services and insurance industries serving the cannabis and hemp markets. Ultimately, the amendment was withheld from the final NDAA. The SAFE Banking Act, while popular on both sides of the aisle, continues to elude passage. Read more HERE. **Republican Rep. Nancy Mace (R-SC) Introduces Legislation to Decriminalize and Regulate Cannabis Federally** As a response to Sen. Majority Leader Schumerâ€™s discussion draft released earlier this summer, Rep. Mace introduced the States Reform Act, legislation that would decriminalize cannabis federally and defer to state law, impose a flat 3% federal tax, spread federal regulatory authority across three agencies, and expunge federal nonviolent cannabis offenses. Read more HERE. View a copy of the legislation HERE. **SOCIAL EQUITY UPDATES** **Two New Social Equity Reports Released** Social equity considerations are the focus of much attention, as new state cannabis programs are aimed at rectifying harms caused by the disproportionate criminal enforcement of cannabis prohibition and increasing minority ownership and employment in the expanding cannabis marketplace. The first report, "Fair and Square: How to Incorporate Social Equity into Cannabis Laws and Regulations", authored by Shaleen Title, former Commissioner of the Massachusetts Cannabis Control Commission (Mass CCC), discusses how state and local regulators can implement social equity policies along three domains: qualified applicants, benefits for applicants, and licensing policies. The second, "Racial Equity in Cannabis Policy," authored by current researchers in the Mass CCC, is the first social science research applying methodological analysis of racial and ethnic diversity in the Massachusetts cannabis industry. "FAIR AND SQUARE" REPORT" "RACIAL EQUITY IN CANNABIS POLICY" REPORT **BUSINESS & FINANCIAL UPDATES** **New Mexico Credit Union Receives the Nationâ€™s First Financial Institution Certification for Cannabis and Hemp Banking Protocols** In early December, New Mexico Attorney General Hector Balderas announced that U.S. Eagle Federal Credit Union is the first financial institution to become certified for its monetary banking protocols in cannabis and hemp operations. The certification is overseen by the Policy Center for Public Health & Safety in collaboration with State Attorneys General. Read more from the New Mexico Attorney Generalâ€™s Office HERE.

Body	Hello everyone, **Our Food Collection Challenge ends tomorrow!** Please consider donating if you haven't already done so – we look forward to seeing how we compared to other agencies and it all is for a great cause. Thank You, *Ashley Eisenbeis* **Human Resources Officer II** **NORTH DAKOTA OFFICE OF ATTORNEY GENERAL** **Email: aeisenbeis@nd.gov** **Phone: 701-328-1256** **From:** Eisenbeis, Ashley <aeisenbeis@nd.gov> **Sent:** Monday, December 6, 2021 4:47 PM **To:** -Grp-AG Capitol 1st Floor <agcap1@nd.gov>; -Grp-AG Capitol Ground Floor <agcapgrd@nd.gov> **Subject:** Food Collection Challenge REMINDER – we are participating the Food Collection Challenge as well! Please consider donating non-perishable food items to help those in need in our area (and compete with other agencies). Thank you to everyone who has donated already – our tree doesn't look as lonely as it did last week but if you haven't donated yet, please consider doing so! Thank You, *Ashley Eisenbeis* **Human Resources Officer II** **NORTH DAKOTA OFFICE OF ATTORNEY GENERAL** **Email: aeisenbeis@nd.gov** **Phone: 701-328-1256** **From:** Eisenbeis, Ashley <aeisenbeis@nd.gov> **Sent:** Tuesday, November 30, 2021 8:52 AM **To:** -Grp-AG All Staff <agall@nd.gov> **Subject:** Food Collection Challenge Good morning everyone, The Office of the State Auditor has challenged our office in a **collection of food** for people in need. Can you help? Here's how it works: 1. Each location (Capitol 1st Floor, Capitol 17th Floor, AG South, BCI, and Medicare) will have an empty box ready for you to put your donated items in. 2. **Collect as much non-perishable food** as you can. We'll divide the number of food we collect by the number of people in our agency and average for our total. (This makes it fair for smaller agencies to compete against larger agencies) 3. Food collection will run from **Tuesday the 30th of November, until Tuesday the 14th of December**. On Thursday the 16th, we will **drop off the food donations to the Bismarck Emergency Food Pantry** (1012 S 12th St, Bismarck, ND 58504) between 1 p.m. and 4 p.m. Let's donate some food for people in need! Thank You, *Ashley Eisenbeis* **Human Resources Officer II** **NORTH DAKOTA OFFICE OF ATTORNEY GENERAL** **Email: aeisenbeis@nd.gov** **Phone: 701-328-1256**

Body	Good morning, The interim Government Administration Committee, Senator Randy A. Burckhard, Chairman, has been assigned studies of space needs and property leased by the state pursuant to Section 43 of House Bill No. 1015 (2021) and House Concurrent Resolution No. 3043 (2021). These studies include a determination of the individuals who own the property leased by the state, including the members of a corporation, partnership, or any other type of entity that owns property leased by the state. At the October 25, 2021, Government Administration Committee meeting, the Legislative Council was asked to conduct a survey of state entities to collect information on space needs and leased property ownership. The committee members are aware state leases do not always identify the individual owners of property and have requested agencies/entities ask their lessors for the information. Please complete the attached survey regarding state agency space needs and leased property ownership and return the completed survey to me via email (ajcronquist@nd.gov) by Monday, February 28, 2022. If you have any questions regarding this survey, please feel free to contact me. Thank you. Alex Cronquist, CPA Senior Fiscal Analyst North Dakota Legislative Council (701)328-4238 ajcronquist@nd.gov

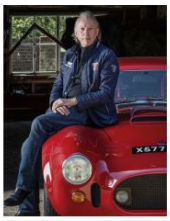
T-Mobile recently released its first end-of-year wireless scam report, sharing new data and trends on scam and robocalls. Attempted scam calls hit record highs in 2021 with T-Mobile Scam Shield having identified or blocked over 21 billion calls – that's 700 calls per second - for T-Mobile and Metro by T-Mobile customers through early December 2021. T-Mobile launched Scam Shield in July 2020 and thanks to the patented tools and safeguards built into the heart of T-Mobile's network, the Un-carrier is leading the industry in making sure every customer is protected against scammers – no special device, app or plan required. Our full news release can be found in the T-Mobile Newsroom: https://www.t-mobile.com/news/devices/t-mobile-releases-2021-scam-and-robocall-report. You can also check out the full report to learn more about scammer behavior including what parts of the US they target most. Please don't hesitate to reach out with any questions. Date Change: September 7 & 8, 2022. View in browser

Due to the rapid escalation of the Omicron variant of C19 in the USA and elsewhere, we have decided to move ADAS & Autonomous Vehicle Technology Expo & Conference to run on **September 7 & 8, 2022.**

We all hope – and have fair reason to expect – that the real impact of Omicron will not be anything like as severe as that of C19 during the last two years. However, it will definitely cause some disruption, uncertainty and potentially some hesitance for some people about joining moderately large gatherings at indoor events. Therefore, rather than running the risk of presenting an event that is less than 100%, we have discussed the issue with our exhibitors and agreed that it is much better to postpone the expo until the late summer.

All arrangements are essentially in place, with an excellent line-up of exhibitors and a lively conference program that has some excellent content. More exhibitors are signing up every week and even more content will have been added by the time we run the event in September.



Footnote: I attended the first-ever autonomous highway demonstration in San Diego in 1997 and was also a guest at the PROMETHEUS final meeting in Paris a few years earlier, in 1994. The highlight of the event in France was the Mercedes S Class driving itself fully autonomously rather well. The San Diego event featured Buick LeSabres platooning along a closed-off section of freeway at 60mph. I was also the first person in Europe to drive the GM EV1.

Rest assured, this is all a key part of my world and I truly look forward to bringing a really exciting event to you all in California.

Best regards,
Tony Robinson, founder, ADAS & Autonomous Vehicle Technology Expo & Conference

All,

I have good news and bad news. The good news is that moots have being going well and we look forward to argument tomorrow. The bad news I will have to participate by phone: despite being triple vaxxed and taking precautions, I had an asymptomatic case of COVID. I've since recovered but the PCR test—which can pick up results up to 90 days old—detected the virus. I'm very sorry about this, but I'm confident it won't affect our case. I have a practice session with the Court to test audio, and I'm told another attorney in one of the cases will also be remote.

Subject: OSHA Response

All,

Here is OSHA's response. There's nothing surprising, except perhaps the argument at the end that the court can't grant cert before judgment here under *Marbury*. That's really moot now—we don't need cert before judgment if they make clear in the stay that we'll prevail.

All,

I have good news and bad news. The good news is that moots have being going well and we look forward to argument tomorrow. The bad news I will have to participate by phone: despite being triple vaxxed and taking precautions, I had an asymptomatic case of COVID. I've since recovered but the PCR test—which can pick up results up to 90 days old—detected the virus. I'm very sorry about this, but I'm confident it won't affect our case. I have a practice session with the Court to test audio, and I'm told another attorney in one of the cases will also be remote.

Happy Friday everyone. We've decided to push our amicus filing until next week Tuesday to give everyone more time to join. So please let us know if you'd like to join by **Tuesday, January 25 at noon.** To recap the brief – voting-rights plaintiffs shouldn't be allowed to take insufficient section 2 results allegations and just claim "discriminatory purpose" in order to survive a motion to dismiss. We'd like to make a strong showing in support of Arizona on this one, so let me know if you have any questions or concerns about the brief. Thanks!

Subject: Draft States Amicus Brief - Mi Familia Vota v. Hobbs

Hello all,

I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied.

We'd like to file this on Friday, so please let me know if you'd like to join by **noon (CT) on Friday, January 21.** Thank you!

Hello all,

I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied.

We'd like to file this on Friday, so please let me know if you'd like to join by **noon (CT) on Friday, January 21.** Thank you!

Body	***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. ***** General This Clay Friedman. I hope this finds you well. As you will recall, we spoke a couple of times (most recently in Ireland) about our firm's client, Accreditation Council For Medical Affairs ("ACMA"), which is a medical affairs educational training and certification program. ACMA has also developed opioid education programs for adults and teenagers in order to assist with community education, abatement, and outreach. ACMA can give these programs to any community groups (students, the healthcare industry, private sector businesses, government agencies, etc.) about the harms of opioids and to help curb the opioid crisis through education and prevention. As we preliminarily discussed, ACMA is interested in scheduling a brief meeting (30-45 minutes) with you and/or your opioid team to meet the ACMA and its CEO and founder, William Soliman, to discuss ways the ACMA may be able to assist the state with community opioid education. Please let me know who would be best to follow-up with. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations. Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

Moreover, OSHA has previously indicated that the "ETS also acts as a proposal for a permanent standard." Thus, unless the ETS is withdrawn before then, Kentucky plans to proceed with submitting a comment letter in opposition to the ETS (and any similar permanent standard) next Wednesday. All,
Attached is a slightly updated version of the OSHA ETS comment letter. Several minor edits are reflected in redline—none material. At this point we have received sign-ons from Alabama, Arkansas, Georgia, Kansas, Montana, Nebraska, Oklahoma, South Carolina, and West Virginia. Unless I hear otherwise, I will assume that those that have already signed-on are fine with the edits reflected in the attached.

If anyone else would like to sign-on, please let me know by 12:00 (noon) EST tomorrow, Wednesday, January 19.

Thank you,

All,
Attached is a slightly updated version of the OSHA ETS comment letter. Several minor edits are reflected in redline—none material. At this point we have received sign-ons from Alabama, Arkansas, Georgia, Kansas, Montana, Nebraska, Oklahoma, South Carolina, and West Virginia. Unless I hear otherwise, I will assume that those that have already signed-on are fine with the edits reflected in the attached.

If anyone else would like to sign-on, please let me know by 12:00 (noon) EST tomorrow, Wednesday, January 19.

THE AMERICAN RESCUE PLAN AND STATE RECOVERY

To view the state economic recovery website, visit: web.csg.org/recovery

Recent Updates Every State Leader Should Know

1. **The U.S. Department of the Treasury issues Final Rule for State and Local Fiscal Recovery Funds program that allows state and local governments to meet immediate pandemic needs as well as invest in long-term recovery.**

The State and Local Fiscal Recovery Fund is designed to ensure state and local governing bodies can sustain important services during the pandemic, including providing health care and vaccines, mitigating economic impacts, supporting families and building a strong recovery. As part of this program, the Department of the Treasury has distributed more than $245 billion. The Final Rule provides governments with simpler rules providing greater discretion in the use of funds:

- ***Establishes a â€œstandard allowanceâ€ of up to $10 million states may spend on government services instead of using the Treasury formula to calculate revenue loss. The Treasury formula can still be used and has been revised from the Interim Final Rule to be more flexible.***
- ***Provides broader discretion in determining households, communities, small businesses and industries impacted and disproportionately impacted by the COVID-19 health emergency and expands the eligible use of funds.***
- ***Provides a broader menu of options for states to restore and bolster public sector capacity.***
- ***Provides clarity for recipients regarding use of funds to invest in capital expenditures as part of their public health or economic recovery response.***
- ***Expands the way states can provide premium pay for essential employees.***
- ***Broadens the use of funds for investments in water and sewer infrastructure.***
- ***Expands eligible use of funds to build broadband infrastructure and to ensure equitable access.***
- ***Maintains the Interim Final Ruleâ€™s restrictions on use in other areas with additional clarifications.***

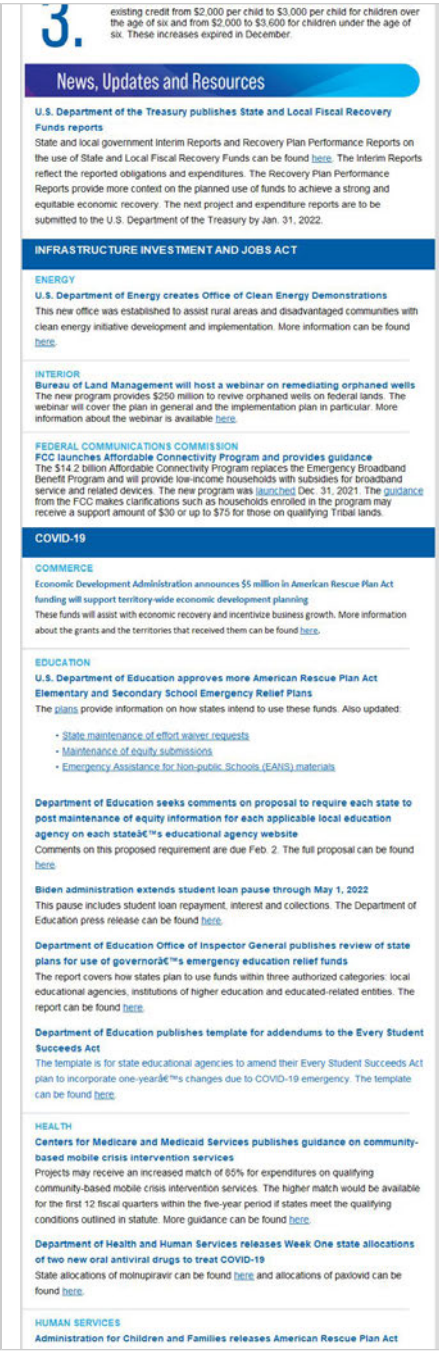
Stay tuned for the next newsletter for a full analysis of the Final Rule. The full text of the Final Rule can be found here, and a more user-friendly overview can be found here.

The Department of the Treasury is hosting webinars to provide an overview and answer questions on the Final Rule. A recording of the webinar will be posted online. Interested individuals can register to attend a webinar, which will be held Jan. 10 at 4 p.m. EST and again Jan. 12 at 1 p.m. EST.

2. Before the holidays, the Senate indefinitely postponed action on President Bidenâ€™s Build Back Better Act â€“ a series of measures related to education, health care, employment, the environment and taxation. The bill passed the House on Nov. 19. In the absence of Republican support, all 50 Senate Democrats must support the billâ€™s passage. Two Democratic senators currently do not. Talks continue among the Biden administration and Senate leadership. No vote is currently scheduled.

One of the components of Build Back Better is an extension of increases to federal child tax credits. The American Rescue Plan Act increased the

Body



existing credit from $2,000 per child to $3,000 per child for children over the age of six and from $2,000 to $3,600 for children under the age of six. These increases expired in December.

I will share this afternoon. Happy to take edits too. We are just compiling our notes from talking to Directors and teachers. If you have someone who has more to add or has special expertise in speech development and early childhood ed then just adapt.

Louisiana is in the process of drafting a compliant. We will have draft declarations available today. We have identified about 6 program directors willing to sign declarations (some more detailed than others).

We plan to file in the Western District of La, which at this point is where most if not all our declarations will come from. As a practical matter, I don't think we can get the Complaint and PI filed until next week so we are shooting for Tuesday of next week.

We welcome all joiners.

Elizabeth,

Here is a standing/parties edit for South Dakota:

The State of South Dakota is a body politic created by the Constitution and laws of the State; as such, it is not a citizen of any state. This action is brought by the State in its sovereign capacity in order to protect the interests of the State of South Dakota and its citizens as *parens patriae*, by and through Jason R. Ravnsborg, the Attorney General of the State of South Dakota. The Attorney General is acting pursuant to his authority to appear for the State and prosecute any civil matter in which the State is a party or interested when, in his judgment, the welfare of the State demands. SDCL §1-11-1(2).

Thanks.

I know you don't have time to read a whole research report on this, so I included the short conclusion synopsis so that you would have time to read if you were interested. However, as you know, fire investigators may be occupationally exposed to many of the same compounds but are often tasked with working on the scene for longer periods of time with limited PPE. Our latest peer-reviewed journal article highlights the need to protect investigators' airways from particulates during investigations and post-fire reconstruction activities. Hi Wayne,

Also, I never got you an update on the fatal explosion last week.

Our DFM did investigate and ATF is assisting her. One fatality resulted, and one injured party is in the hospital and won't be able to interview for a number of weeks at this point due to the injuries sustained.

We were able to obtain video of the exact moment the explosion occurred (let me know if you want to see it and I can have our DFM share it with you over teams if you are interested).

It looks like the cause may be due to the work the gentlemen were doing or how they were doing it. However, we will not have an official cause (if we do print one) until the complete report is approved.

If you want any more information, let me know.

Thanks and Happy New Year to you as well!

Doug Nelson

Today we have announced our latest publication that may be of particular interest to NASFM. Most chemical exposure studies have primarily focused on firefighters during suppression or overhaul. However, as you know, fire investigators may be occupationally exposed to many of the same compounds but are often tasked with working on the scene for longer periods of time with limited PPE. Our latest peer-reviewed journal article highlights the need to protect investigators' airways from particulates during investigations and post-fire reconstruction activities. "Airborne contamination during post-fire investigations: hot, warm and cold scenes" was recently published in the Journal of Occupational and Environmental Hygiene. Body	Hi Wayne, Also, I never got you an update on the fatal explosion last week. Our DFM did investigate and ATF is assisting her. One fatality resulted, and one injured party is in the hospital and won't be able to interview for a number of weeks at this point due to the injuries sustained. We were able to obtain video of the exact moment the explosion occurred (let me know if you want to see it and I can have our DFM share it with you over teams if you are interested). It looks like the cause may be due to the work the gentlemen were doing or how they were doing it. However, we will not have an official cause (if we do print one) until the complete report is approved. If you want any more information, let me know. Thanks and Happy New Year to you as well! Body	Good morning Wayne and Troy, First off, sorry to hear you are both not feeling well, hope you kick it soon and start feeling better. Secondly, our DFM candidate is in town today to complete the final items related to her conditional offer. The background investigation is complete and there was nothing to report and no reasons why she would not be a good candidate. She is in with the psychological Dr. this morning and will be up to meet with Ashley this afternoon. We have been struggling to fill this position for 7 months, and the hiring process has been slow as it is. I am hoping that we can proceed with a final offer at this point as to not put off a start date any further. Are you ok with us proceeding with a final offer for this candidate so that we can have her start with our office on February 14th? I would schedule her to meet with you both on her first week orientation so you would get a chance to talk with her then. Attached are her cover letter, resume and the memo requesting approval for a final offer and the final job offer letter. Please let me know whether you approve of this or not and if you have any questions or concerns. Thanks, Doug Nelson

Dear Wayne,

It was inspiring to see so many of you booking travel for this holiday season to visit loved ones, reconnect with friends and celebrate together. And Delta's 75,000 employees across the globe – who together have worked to make us the world's most reliable airline – were ready and excited to deliver the service we're known for and get you where you needed to go. Unfortunately, a series of winter weather systems throughout the U.S. coupled with the rapidly spreading Omicron variant put extraordinary pressure on our operation, our employees and customers like you. It has been one of the most difficult operational environments we've ever faced, and it forced us to cancel hundreds of flights as a result.

We know you expect the best from Delta – and you should, and I want to apologize to everyone whose travel plans have been impacted. Canceling a flight is always Delta's last resort. It's not only difficult on you, but it's also hard on our people, who truly want nothing more than to take care of you – especially over the holidays. While our teams work around the clock to restore our operation and serve you, here are some things to keep in mind for your upcoming travels:

TAKING ACTION TO SUPPORT YOU

Our teams have been hard at work to support you and alleviate the difficulties of the challenging period, working to reroute and substitute aircraft and crews to get you on your way quickly and safely. When that hasn't been possible, our Reservation specialists work closely with our Operations and Customer Care Center to get those impacted onto the next available flight. In addition, we are notifying customers as early as possible of changes to their travel itineraries and **issuing travel waivers** ahead of winter weather forecasts. Delta has also focused on making travel more flexible – including removing change fees for most tickets, **extending Medallion Status** and key SkyMiles benefits into January 2023, and providing more ways for you to manage your trips from your own device.

UPDATED HEALTH GUIDANCE RELIEVES OPERATIONAL STRAIN

New CDC isolation and quarantine guidelines, which are based on the latest scientific research on the Omicron variant, are expected to help alleviate staffing pressure in the weeks ahead and smooth out operational difficulties. Our medical advisors, led by Delta Chief Health Officer Dr. Henry Ting

Body	Our medical advisors, led by Delta Chief Health Officer **Dr. Henry Ting** along with experts like **Dr. Carlos del Rio**, Distinguished Professor of Medicine in the Division of Infectious Diseases at Emory University School of Medicine, have shared that the majority of new cases, especially among those fully vaccinated, fortunately appear to be more mild than previous variants. However, Omicron is much more transmissible than previous variants, so we are grateful for your continued mask wearing on board as it proves to be an effective tool in virus mitigation and remains a federal requirement. **NEW TOOLS TO GIVE YOU MORE CONTROL** We've invested throughout 2021 in upgrading our digital tools to help you navigate the current environment with self-service options designed to save you time. That includes the ability to quickly change or cancel a flight, find baggage information, select your seat or request assistance with accessible travel via **delta.com** or the **Fly Delta app**. And if you're **flying internationally**, we've worked to remove the guesswork from health requirements with **Delta FlyReady℠**, offering the ability to upload and verify government forms, proof of vaccination and negative COVID-19 testing for many destinations. As the world manages through these uncertain days, please know that all of us at Delta are committed to delivering the world-class safety, service and reliability you have come to expect from us. With grit, determination and dedication, our team has overcome numerous challenges since the pandemic began, and you have my commitment that we'll continue to take care of you as we work to deliver the seamless and enjoyable experience you expect and deserve when you travel with Delta. In the meantime, our thoughts are with everyone experiencing the virus firsthand. Please stay safe and take care. Thank you for your business and loyalty. We look forward to seeing you on board. ADVICE TO INTERNATIONAL PASSENGERS ON LIMITATIONS OF LIABILITYâ€‹

Passengers embarking upon a journey involving an ultimate destination or a stop in a country other than the country of departure are advised that the provisions of an international treaty (the Warsaw Convention, the 1999 Montreal Convention, or other treaty), as well as a carrierâ€™s own contract of carriage or tariff provisions, may be applicable to their entire journey, including any portion entirely within the countries of departure and destination. The applicable treaty governs and may limit the liability of carriers to passengers for death or personal injury, destruction or loss of, or damage to, baggage, and for delay of passengers and baggage.

Additional protection can usually be obtained by purchasing insurance from a private company. Such insurance is not affected by any limitation of the carrierâ€™s liability under an international treaty. For further information please consult your airline or insurance company representative.

Conditions of Carriage

Air transportation on Delta and the Delta Connection[®] carriers is subject to Delta's conditions of carriage. They include terms governing for example:

â€¢ Limits on our liability for personal injury or death of passengers, and for loss, damage of delay of goods and baggage.
â€¢ Claim restrictions including time periods within which you must file a claim or bring action against us.
â€¢ Our right to change terms of the contract.
â€¢ Check-in requirements and other rules established when we may refuse carriage.
â€¢ Our rights and limits of our liability for delay or failure to perform service including schedule change, substitution of alternative air carriers or aircraft, and rerouting.
â€¢ Our policy on overbooking flights, and your rights if we deny you boarding due to an oversold flight.

These terms are incorporated by reference into our contract with you. You may view these conditions of carriage on delta.com, or by requesting a copy from Delta.

You have received this email because you elected to receive your Electronic Ticket receipt sent to you via email. If you would like to take advantage of other Delta email programs featuring special fares, promotions, information and flight updates, please visit: delta.com/emailprograms or delta.com/notifications

This document establishes the creation of your electronic EMD(S) in our computer systems. It does not constitute a document of carriage. Where this document is issued for transportation or services other than passenger air transportation, specific terms and conditions may apply. These terms and conditions may be provided separately or may be obtained from the issuing agent.

Effective December 15, 2019, the Canada Air Passenger Protection Regulations may provide additional protections to passengers traveling to or from Canada:

If you are denied boarding, your flight is cancelled or delayed for at least two hours, or your baggage is lost or damaged, you may be entitled to certain standards of treatment and compensation under the Air Passenger Protection Regulations. For more information about your passenger rights please contact your air carrier (www.delta.com/appr) or visit the Canadian Transportation Agencyâ€™s website.

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern.** Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here.

The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. Reg. 44,424 (Aug. 6, 2021), https://www.federalregister.gov/documents/2021/08/12/2021-17179/self-regulatory-organizations-the-nasdaq-stock-market-llc-order-approving-proposed-rule-changes-as. On August 6, 2021, the Securities and Exchange Commission—on a 3-2 party-line vote—approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. On August 10, 2021, the Alliance for Fair Board Recruitment (AFBR) filed a Petition for Review of the SEC's action in the Fifth Circuit. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern.** Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. On August 6, 2021, the Securities and Exchange Commission—on a 3-2 party-line vote—approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. Reg. 44,424 (Aug. 6, 2021), https://www.federalregister.gov/documents/2021/08/12/2021-17179/self-regulatory-organizations-the-nasdaq-stock-market-llc-order-approving-proposed-rule-changes-as. On August 6, 2021, the Securities and Exchange Commission – on a 3-2 party-line vote – approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. On August 10, 2021, the Alliance for Fair Board Recruitment (AFBR) filed a Petition for Review of the SEC's action in the Fifth Circuit. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

The case involves the Equal Rights Amendment, which states that "[e]quality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex." When Congress proposed it to the States in 1972, the amendment failed. Congress's proposing resolution gave the States only seven years to ratify; but when seven years were up, only 35 States had voted to ratify—three short of the three-fourths supermajority required by the Constitution. And five of those States voted to rescind their ratifications. Everyone thus assumed that the ERA had failed, and that Congress and the States would have to start from scratch if they wanted to add it to the Constitution. But a few years ago, activists began pushing the idea that the 7-year deadline was inoperative and that if three more States ratified the ERA, it would be added to the Constitution. Between 2017 and 2020, Nevada, Illinois, and Virginia "ratified" the amendment, and then sued to have it added to the Constitution. Alabama, Louisiana, Nebraska, South Dakota, and Tennessee intervened to oppose their efforts. We won at the D.C. District Court (our D.Ct. brief is attached), and the case is now before the D.C. Circuit. As the attached memo explains in more detail, there are several different arguments from amici States that could be helpful, whether your State ratified the ERA, never ratified it, or ratified and rescinded (Kentucky and Idaho). We'd love to have a strong showing, particularly after 18 States and DC filed a brief supporting the plaintiffs. The stakes are high, as the ERA could be wielded by courts to invalidate numerous State laws. Thank you for your consideration. Hobbs Hello all, I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied. We'd like to file this on Friday, so please let me know if you'd like to join by **noon (CT) on Friday, January 21.** Thank you! In Case You Missed It: Must-Read Stories From The Past Week

High Court Again Wades Into Debate Over Water Act's WOTUS Definition

Over the Biden administration's objections, the Supreme Court has agreed to revisit the test EPA and the Army Corps of Engineers use when defining the scope of the Clean Water Act (CWA), opening the door to narrower protections and raising doubts about whether regulators will seek to finalize their proposed rule defining the law's reach. **FULL STORY**

EPA Plans Stricter EtO Air Toxics Rules, Monitoring To Bolster EJ Effort

EPA is reaffirming its key 2016 finding that the industrial solvent ethylene oxide (EtO) is much more harmful than previously thought, and rejecting an alternative assessment by Texas that downplayed health risks, clearing the way for tougher air toxics regulations in several sectors including commercial sterilizers and chemical manufacturing. **FULL STORY**

EPA Retains Controversial Turbidity Monitoring In Final Stormwater Permit

EPA has finalized the latest version of its general permit for stormwater at construction sites, maintaining a requirement for turbidity benchmark monitoring of certain discharges that industry groups strongly opposed, saying the threshold is not an effluent limit that would trigger a permit violation but a "warning sign" for operators to improve their performance. **FULL STORY**

New Study Quantifies Wetlands Benefits As WOTUS Debate Heats Up

A new paper scheduled to be published in a peer-reviewed journal calculates for the first time the benefits of wetlands for reducing flood damages, with its authors pointing to the need for current data as the Supreme Court is poised to reconsider the scope of the Clean Water Act and the Biden administration is weighing a new regulatory definition. **FULL STORY**

EPA Heavy-Duty Rule Backers Stream To OMB To Counter Industry Claims

Environmental groups, states and trucking-industry suppliers are rushing to meet with the White House Office of Management & Budget (OMB) to press their case for strict EPA nitrogen oxide (NOx) limits for heavy-duty trucks in a bid to counter what they say is an unusually relentless and unified industry campaign to weaken the limits. **FULL STORY**

Do not click links or open attachments unless you know they are safe. ***** Good morning Wayne – Sorry this is a long email, but please read it in its entirety. The Coal Conversion Counties Association is a subset of the Western Dakota Energy Association. The CCCA represents cities, counties and school districts in the three coal-producing counties. Its members are concerned about the pending proposal of Bakken Energy and Mitsubishi to convert the Great Plains Synfuels plant to produce blue hydrogen from natural gas. Attached is a letter you previously received stating some of those concerns. CCCA members suspect that because the project received the early endorsement of Governor Burgum, important questions have not been addressed and the project has not been thoroughly vetted. Earlier this week, the application of Bakken Energy for a grant and loan to support the project was endorsed by the Clean Sustainable Energy Authority, and will be coming before the Industrial Commission next week. After listening to the orchestrated presentation of Bakken Energy, and the ensuing discussion with the CSEA board, our coal county members still have many unanswered questions. Please consider these as you ponder a decision at next week's Industrial Commission meeting: 1. Bakken Energy proposes to use 175 million cubic feet of natural gas per day to produce hydrogen. How will the product be transported to market? Is Bakken proposing to construct an ammonia pipeline? Where would it go and what is the timeline/likelihood for permitting? If not a pipeline, how will that volume of product be transported? 2. Basin Electric said it has been losing money at the synfuels plant due to low natural gas prices. But prices have increased significantly in recent months. Is the plant once again profitable producing syngas from coal? If the plant is profitable in the next three years of operation, how does it affect the plan to produce hydrogen? 3. Federal grant guidelines generally require local support for a project, but Bakken Energy has not met with the CCCA membership to answer their questions. Why hasn't that meeting occurred? 4. It appears this project is heavily dependent on federal grants and loans from DOE. Will the parties, Bakken Energy and Mitsubishi (which is a $5.2 trillion company), proceed with the project if it fails to receive federal support? 5. If the project depends on federal support that may or may not be received, is it premature for the State of North Dakota to make a financial commitment at this time? Should the decision of the Industrial Commission be postponed until there is more certainty about project funding? Thank you for your consideration. *Geoff Simon* Executive Director Western Dakota Energy Association 701-527-1832 (mobile) geoff@ndenergy.org

Our nation is in the throws of a Global PLANdemic which Dr. David Martin lays out in this 5 page document. He lists 8 counts of criminal conspiracies against we the people of the United States. If you happen to be an Attorney General with a Conscience and you actually take your Oath of office seriously to protect the Constitution Against ALL Enemies Foreign and DOMESTIC then you must read his brief against Mr. Alex Azar, Dr. Anthony Fauci, Dr. Peter Daszak, Dr. Ralph Baric, FDA, CDC, NIAID, Moderna and Pfizer. We are witnessing a Global Genocide unfold right before our eyes. The COVID is a bioweapon and the bioweapon is the injection and now they are going after all the children. The kids that have taken this injection are having heart issues, heart attacks, flat out dying days or weeks after getting injected or having serious life altering adverse reactions that NEVER had to happen. Before the injection they were normal healthy, active children but not so afterwards. Dr. Sanja Gupta caught on live TV coercing young children to get the jab using Big Bird. Coercing is against the Nuremberg Code. All masks, testing and injecting is against the Nuremberg Code because it's all experimental. Why aren't people being held accountable? https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F&data=04 The government data system VAERS has reported over 20,000 people who have died and over 1 million adverse reactions and only 1%-10% actually gets reported to that system so those numbers are way higher. https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fbrandnewtube.com%2Fwatch%2Ff hearings-ron-johnson-039-s-expert-panel-on-covid-vaccine-injuries- RJogrA87bWROhRG.html%3Fland%3Dtype&data=04%7C01%7CWstenehjem%40nd.gov%7C404458 Senator Ron Johnson held a panel where he spoke with doctors, researchers and people who have been forever harmed and debilitated or know of people who died after getting the injections. So far, nobody has done anything to stop this genocide. The healthiest young athletes are dropping dead all over the world, especially soccer players, but also football players. Others like the man who could hold his breath for 10 minutes underwater their careers have ended. There are videos of news reporters literally dropping dead live while airing the news from other countries. All these people dying, all took the bioweapon injections. Our government has been weaponized against We The People and WE KNOW IT. Out of 50 states there has to be some Attorney Generals out there that will do what needs to be done to put a stop to this madness. Dr. Mike Yeadon worked for Pfizer for 30 years and he has confirmed it is 100% genocide. Dr. Robert Malone, inventor of the mRNA technology has also stated it is genocide. World renowned cardiologist doctor Peter McCullough has been sounding the alarm as well. America's Frontline Doctors have been on the cutting edge of all this since the beginning, yet everyone ignores them and only the propaganda gets pushed out to the public. She see's a lot of parallels between the narrative being used to justify COVID-19 measures such as lockdowns and the narrative employed by the Nazis in Germany to justify the subjugation of other people. She also stated the similarities between how many physicians and other healthcare workers today and in Nazi Germany became instrumental in harming a lot of people. Specifically, Sharav pointed to how doctors during the lead-up to the Nazi takeover of Germany were used to justify eugenics using the Darwinian idea of "survival of the fittest." She went on to state "What happens with a public health policy is that public health officials decide who shall live and who shall die." She explained that this kind of mentality - that the government should get to decide who lives and dies - eventually led to the Holocaust. She goes on to state it is "nonsense" for these doctors to suggest that the right thing to do is sacrifice the rights of individuals in pursuit of a so-called greater good. She mentioned this in reference to the mainstream acceptance of lockdowns. "As public officials, they talk about the greater good. Who has the authority to decide what is the greater good? Said Sharav. "If the individuals are oppressed or relegated to third-class citizens...what kind of society is it?" Governments all over the world have used the pandemic and the fear of getting infected as a major weapon. She argued that this has prevented people from thinking critically. Instead, people are taught to distrust other people and to isolate themselves from their communities. Instead of thinking critically, people are being taught to blindly trust public health officials and so-called experts. "Hitler then, as rulers now, deferred to the health officials said Sharav. "We are constantly being told, "We are following the science. She warned that this will eventually lead to the "complete overthrow of human civilization". Think about that story for a moment. This is from a woman who actually survived the Holocaust, She knows what she is talking about because she lived through it and survived it and she is now telling us it is happening again all over the world and what are our US authorities doing, in our nation? NOTHING except allowing it to happen. I ask each and everyone of you which side of history do you wish to fall upon? You only have two choices. You either act to stop this and fall on the correct side of history or you do nothing and fall on the wrong side of history. History always comes to pass and history will tell the story of who did what and why. You all have a chance to band together and go down in history as the Attorney Generals who stopped this genocide. This PLANdemic will dwarf the WWII holocaust by the time it's all said and done. The time to act is NOW. Dr. David Martin has also followed all the US Patents and he can show you all how it was truly planned out years ago. In the end, we must all account for our actions in front of The God of Abraham, Isaac and Jacob whether you believe in God or not. I hope and pray that you all are up to the task at hand and for those of you that choose to stand against this evil The Lord will protect and guide you. NEW: Treasury Issues Final Rule for State & Local Fiscal Recovery Funds Program to Support the Ongoing COVID Response

U.S. Department of the Treasury

Office of Public Affairs
Press Release

FOR IMMEDIATE RELEASE
January 6, 2022

The final rule enables state and local governments to meet immediate pandemic response needs and promote long-term recovery.

WASHINGTON — Today, the U.S. Department of the Treasury issued the Final Rule for the State and Local Fiscal Recovery Funds (SLFRF) program, enacted as a part of the American Rescue Plan, which delivers $350 billion to state, local, and Tribal governments to support their response to and recovery from the COVID-19 pandemic.

The SLFRF program ensures governments have the resources needed to respond to the pandemic, including providing health and vaccine services, supporting families and businesses struggling with the pandemic's economic impacts, maintaining vital public services, and building a strong and equitable recovery.

To date, Treasury has distributed more than $245 billion to state, local, and Tribal governments as a part of the SLFRF program, accounting for over 99% of funds eligible to be disbursed in 2021 – including funds to many communities that had not received federal assistance since the onset of the pandemic. Recipients of funds were encouraged to begin using funds under the interim final rule, which was released in May 2021. Governments have been spending these funds to address the COVID-19 pandemic and its economic effects, including by expanding access to testing, vaccines, and taking other steps to protect their communities including those that are high-risk and underserved. A recent analysis by the Center on Budget and Policy Priorities found that state governments have appropriated nearly 70% of their available funds as of November 2021.

"Through the State and Local Fiscal Recovery Funds, the American Rescue Plan has provided state and local governments with the support they need to respond to the ongoing pandemic and plan for an equitable recovery," said Deputy Secretary of the Treasury Wally Adeyemo. "As the Delta and Omicron variants have illustrated, pandemic response needs will continue to evolve. These funds ensure that governments across the country have the flexibility they need to vaccinate their communities, keep schools open, support small businesses, prevent layoffs, and ensure a long-term recovery."

The final rule – which takes effect on April 1, 2022 – provides state and local governments

Body	with increased flexibility to pursue a wider range of uses, as well as greater simplicity so governments can focus on responding to the crisis in their communities and maximizing the impact of their funds. The State and Local Fiscal Recovery Funds Program final rule provides additional clarity and flexibility for recipient governments, including: • First, Treasury has expanded the non-exhaustive list of uses that recipients can use to respond to COVID-19 and its economic impacts – ensuring states and localities can adapt quickly and nimbly to changing public health and economic needs. This includes clarifying that recipients can use funds for certain capital expenditures to respond to public health and economic impacts and making services like childcare, early education, addressing learning loss, and affordable housing development available to all communities impacted by the pandemic. • Second, Treasury has expanded support for public sector hiring and capacity, which is critical for the economic recovery and in maintaining vital public services for communities. • Third, Treasury has streamlined options to provide premium pay for essential workers, who bear the greatest health risks because of their service in critical sectors. • Fourth, Treasury has broadened eligible water, sewer, and broadband infrastructure projects – understanding the unique challenges facing each state and locality in delivering clean water and high-speed broadband to their communities. • In addition to these expansions, Treasury has greatly simplified the program for small localities – many of whom have received a historic federal investment in their communities through this program – including through the option to elect a standard allowance for revenue loss rather than calculating revenue loss through the full formula. NEW: Treasury Issues Final Rule for State & Local Fiscal Recovery Funds Program to Support the Ongoing COVID Response

U.S. Department of the Treasury

Office of Public Affairs
Press Release

FOR IMMEDIATE RELEASE
January 6, 2022

The final rule enables state and local governments to meet immediate pandemic response needs and promote long-term recovery.

WASHINGTON — Today, the U.S. Department of the Treasury issued the Final Rule for the State and Local Fiscal Recovery Funds (SLFRF) program, enacted as a part of the American Rescue Plan, which delivers $350 billion to state, local, and Tribal governments to support their response to and recovery from the COVID-19 pandemic.

The SLFRF program ensures governments have the resources needed to respond to the pandemic, including providing health and vaccine services, supporting families and businesses struggling with the pandemic's economic impacts, maintaining vital public services, and building a strong and equitable recovery.

To date, Treasury has distributed more than $245 billion to state, local, and Tribal governments as a part of the SLFRF program, accounting for over 99% of funds eligible to be disbursed in 2021 – including funds to many communities that had not received federal assistance since the onset of the pandemic. Recipients of funds were encouraged to begin using funds under the interim final rule, which was released in May 2021. Governments have been spending these funds to address the COVID-19 pandemic and its economic effects, including by expanding access to testing, vaccines, and taking other steps to protect their communities including those that are high-risk and underserved. A recent analysis by the Center on Budget and Policy Priorities found that state governments have appropriated nearly 70% of their available funds as of November 2021.

"Through the State and Local Fiscal Recovery Funds, the American Rescue Plan has provided state and local governments with the support they need to respond to the ongoing pandemic and plan for an equitable recovery," said Deputy Secretary of the Treasury Wally Adeyemo. "As the Delta and Omicron variants have illustrated, pandemic response needs will continue to evolve. These funds ensure that governments across the country have the flexibility they need to vaccinate their communities, keep schools open, support small businesses, prevent layoffs, and ensure a long-term recovery."

The final rule – which takes effect on April 1, 2022 – provides state and local governments

Body	with increased flexibility to pursue a wider range of uses, as well as greater simplicity so governments can focus on responding to the crisis in their communities and maximizing the impact of their funds. The State and Local Fiscal Recovery Funds Program final rule provides additional clarity and flexibility for recipient governments, including: • First, Treasury has expanded the non-exhaustive list of uses that recipients can use to respond to COVID-19 and its economic impacts – ensuring states and localities can adapt quickly and nimbly to changing public health and economic needs. This includes clarifying that recipients can use funds for certain capital expenditures to respond to public health and economic impacts and making services like childcare, early education, addressing learning loss, and affordable housing development available to all communities impacted by the pandemic. • Second, Treasury has expanded support for public sector hiring and capacity, which is critical for the economic recovery and in maintaining vital public services for communities. • Third, Treasury has streamlined options to provide premium pay for essential workers, who bear the greatest health risks because of their service in critical sectors. • Fourth, Treasury has broadened eligible water, sewer, and broadband infrastructure projects – understanding the unique challenges facing each state and locality in delivering clean water and high-speed broadband to their communities. • In addition to these expansions, Treasury has greatly simplified the program for small localities – many of whom have received a historic federal investment in their communities through this program – including through the option to elect a standard allowance for revenue loss rather than calculating revenue loss through the full formula. Safe Meeting Protocols

We are committed to providing a safe, enjoyable environment for all attendees. As such, AGA has put in place the following preventative measures to reduce the spread of COVID-19:

1. As a voluntary initiative to enhance the safety of our event, all attendees are asked to take a COVID test at least three days prior to traveling to Avon, Colorado. While you will not be required to share your test results, AGA staff may assist with timely travel cancellations.
2. In an effort to reduce the possibility of exposing a colleague or loved one to the virus, all attendees will receive a rapid antigen detection test for COVID- 19 upon arrival. Attendees are requested to immediately self- test upon hotel check- in. Attendees are then asked to apply individual- level responsibility and a strong sense of civism regarding their rapid test result. Attendees may voluntarily share test results with AGA staff to assist with quarantine or isolation procedures.

***No testing information will be requested nor collected by the AGA.**

Apparently a bit ago the Williston School Board held an executive session. Some school board members leaked some info about the meeting to Tom. He ran the story on Williston Trending Topics and on Facebook. Last night, while at another school board meeting in the school office, BCI agent Chrissa Remus showed up with a search warrant for Tom's phone signed by Judge Johnson and seized his phone. She said she was authorized by the warrant to search his phone to identify who leaked the info. The AP just called about it. This could be a start of a firestorm. The warrant is a violation of our shield law for a start, and I'm not sure how BCI gets involved with school board matters? Can you check on this? The Board if, of course a public entity subject to the open records and meetings laws. Mary Kelsch has addressed this issue with the board member you refer to, and I asked her about it. Here is what she said: "He was not a board member at the time of the executive session. The recording is exempt so it could be released to him if the board votes to release it to him. I believe he made a motion at a board meeting to listen to it and they voted NOT to release the recording to him." Body	Good Morning Attorney General- Please see Mr. Wald's comments below. We are seeking your approval on the insurance provision (page 11). Thank you, Jodi Smith, MNM, MNT *Land Commissioner* 701.328.2807 • jodi.smith@nd.gov • land.nd.gov **From:** Wald, James J. <jawald@nd.gov> **Sent:** Friday, January 21, 2022 10:34 AM **To:** Smith, Jodi <jodi.smith@nd.gov> **Subject:** Minnkota Carbon Storage Easement Agreement - AG approval required Commissioner, In the October 28, 2021 Board meeting, the Board approved a draft carbon storage easement agreement (subject to Attorney General's approval) with Minnkota Power Cooperative to store carbon in pore space underlying Board-managed property in Oliver County. The Attorney General approved the draft on November 3, 2021. Since that time, Minnkota has expressed concern with subsection 11.4 that would permit the Board to unilaterally and immediately terminate the Agreement in the event that Minnkota allows a lapse of insurance coverage. Tag Anderson with the Risk Management Division proposed revised language to this provision providing Minnkota an opportunity to cure any such lapse and Minnkota has agreed. Attached is a redline version of the Agreement that incorporates the changes to the insurance provision (page 11) as well as immaterial clean-up edits. Also attached is an inducement letter providing for additional payment as a condition to executing the Easement Agreement. We are again asking for the Attorney General's approval of this Agreement as revised. Respectfully, **James J. Wald** Assistant Attorney General ND Department of Trust Lands 1707 North 9th Street Bismarck, ND 58501 Direct: (701) 328-1948 jawald@nd.gov *This electronic mail transmission is intended for the use of the individual or entity to which it is addressed and may contain confidential information belonging to the sender. Body	***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. ***** Good afternoon Wayne, I haven't yet had a chance to wish you well in your announced retirement. I hope this means that you and Beth will have even greater opportunities for interesting travel. Congratulations on your long and honorable service to the state. I reach out today because I am leading a work group to rewrite our court rule relating to open records (Admin. Rule 41). You may recall that about two years ago we amended this rule and implemented a policy of greater remote public access of court records that had been to that point available only in person at court houses. For a variety of reasons, that public access under the amended rule was suspended. Our Court Services Administration Committee spent more than a year working on another approach to these issues. Unfortunately, I believe the result of that effort did not leave us with a viable rule to manage access to records within the judicial branch. I have been working on a draft rule for consideration by the Supreme Court that would closely track the open records provisions in Chapter 44-04, in many cases by expressly incorporating those procedures by reference. As you are probably aware, Chapter 44-04 expressly excludes from the definition of "record" any documents in the possession of a court. This carve-out recognizes that the Court has authority to provide by rule for management of judicial records. I think the public should have a more consistent experience in terms of cost, response time, administrative procedure, etc whether records are requested from the executive branch or the judicial branch. I explain all this to you to ask if you would recommend someone in your office having knowledge and experience with our open records laws to participate in 2-3 meetings over the course of the next 3 months or so. I think the statutory procedures for requests, costs, response time, search and collection, and many of the exemptions and confidentiality exclusions are well crafted and would work well for court records. If this project leads where I believe it will, the court, and eventually the public, would benefit from your office's expertise in this area as we re-write our open records rule to harmonize it with Chapter 44-04. Thank you for your assistance with this and please let me know if your office has someone willing and able to assist us with this. You can also reach me on my cell phone at [redacted] if you'd like to discuss further. Jerod **Jerod E. Tufte** Justice - North Dakota Supreme Court

"North Dakota Housing Finance Agency provides affordable home financing including government-backed loans that help individuals and families with modest incomes buy a home with as little as $500 down," said Dave Flohr, the agency's executive director. Loan guarantees reimburse lenders for their loss in the event that a homeowner defaults. Of the nearly 11,000 loans NDHFA currently services, 48 percent are FHA guaranteed. Loan servicers receive quarterly scores that are averaged to produce a final fiscal year-end score. NDHFA's FY2021 score is 93.53 percent, up from 91.81 the previous year. The agency was one of 297 loan servicers ranked as Tier 1 for FY2021. There were 801 FHA servicers nationwide. The ranking system measures FHA servicer compliance with guidelines and intervention requirements, loss mitigation engagement, and reporting. The intention of the ranking is to protect borrowers and alert HUD to potential problems. A high work-out ratio shows a servicer's effectiveness in working with delinquent borrowers to keep them out of foreclosure. The National Servicing Center has ranked NDHFA a Tier 1 servicer for four years running. NDHFA has serviced its own mortgage loans for 30 years. The agency also services loans for Bank of North Dakota and local nonprofit housing providers. A self-supporting and mission-driven agency, NDHFA is dedicated to making housing affordable for all North Dakotans. The North Dakota Industrial Commission, consisting of Governor Doug Burgum as chairman, Agriculture Commissioner Doug Goehring and Attorney General Wayne Stenehjem, oversees the agency. More information about NDHFA is available online at www.ndhfa.org. - 30 -

The ranking system measures FHA servicer compliance with guidelines and intervention requirements, loss mitigation engagement, and reporting. The intention of the ranking is to protect borrowers and alert HUD to potential problems. A high work-out ratio shows a servicer's effectiveness in working with delinquent borrowers to keep them out of foreclosure. The National Servicing Center has ranked NDHFA a Tier 1 servicer for four years running. NDHFA has serviced its own mortgage loans for 30 years. The agency also services loans for Bank of North Dakota and local nonprofit housing providers. A self-supporting and mission-driven agency, NDHFA is dedicated to making housing affordable for all North Dakotans. The North Dakota Industrial Commission, consisting of Governor Doug Burgum as chairman, Agriculture Commissioner Doug Goehring and Attorney General Wayne Stenehjem, oversees the agency. More information about NDHFA is available online at www.ndhfa.org. - 30 -

Please note that the Industrial Commission does not have jurisdiction over the Department of Environmental Quality or the North Dakota Trust Lands so this response does not relate to those agencies. The Industrial Commission meets once a month to consider recommendations and reports from the agencies that are under the Commission's jurisdiction. The meeting agendas are based on recommendations from those agencies. The Commission only considers proposals that have been reviewed and considered by an Industrial Commission agency. It appears from your e-mail that your topic is reclamation. The only Industrial Commission agency that deals directly with reclamation is the Department of Mineral Resources. I would suggest you submit a written proposal to the Department of Mineral Resources, Oil and Gas Division. The Oil and Gas Division makes quarterly reports to the Industrial Commission. After reviewing your proposal the Oil and Gas Division may have recommendations for the Commission's consideration. Those recommendations might be included on an Industrial Commission agenda along with a very brief presentation of your proposal by a member of the Salted Land and Water Council in conjunction with one of those quarterly reports. Body	Several people have asked when the office will be closed over the holidays. As you know, we usually get ½ day off on December 24th and then the entire day of December 25th, but this year because December 25th is on Saturday, the state holiday is observed on December 24th. State agencies (including ours) will be closed all day on December 24 instead of a ½ day. Normal business hours December 20-23. As New Years' Day January 1st is on a Saturday this year, the holiday is observed on Friday December 31st, so all state agencies will be closed that day. Normal business hours December 27-30. Shannon will send out the usual "hours and holidays" reminder before the end of the month. Liz

Good Afternoon, Liz –

ERISA does not apply to our retirement plans except in limited circumstances, most of which involve requirements to maintain our plans' tax qualified status. While we would look to ERISA or ERISA case law in the absence of a specific state statute or case on a given topic, that, again, would typically be in regard to tax qualification issues rather than general investment guidelines. As such, I do not know that the proposed rule change would directly impact our plans or the investment of their monies.

Unfortunately, I do not have any historical knowledge on whether the NDPERS Board has previously endorsed or prohibited ESG considerations generally. When I was the SIB's attorney a lifetime ago, the SIB was opposed to ESG requirements because of the prudent investor rule and the exclusive benefit rule.

From a public pension industry perspective, I believe the contemplation of certain ESG considerations has become accepted as legitimate business and economic concerns, including some of those related to the topics on page 5 of the proposed letter. Nonetheless, neither the act of prohibiting nor the act of requiring those considerations would seem to be prudent. At the end of the day, I would argue the prudent investor rule and the exclusive benefit rule should be the guide, rather than a blanket requirement. That would, of course, require appropriate documentation of the evaluation and decision-making process.

Have a great weekend,

Scott

Liz,

I have little to add to Scott's response. One line in the brief I think best summarizes this issue and that is differentiating between making ESG factors determinative v. informative (cited below).

Much research has supported an argument that failure to consider such factors may not be prudent, but requiring that such factors be a determining factor in investment decision making runs contrary to the exclusive benefit rule. This rule is memorialized in several places in North Dakota Century Code and most recently with the passing of S.B.2291 (2021), and now found in NDCC 21-10-08.1. In short I fully concur with Scott that any ruling either prohibiting or requiring such considerations would be cause for concern and run contrary to generally accepted law surrounding a fiduciaries duty of prudence and loyalty.

From brief:
"In making ESG factors *determinative* rather than *informative*, the Proposed Rule breaks from the core, established, and essential fiduciary duty of prudence and loyalty to employees and beneficiaries under ERISA and confuses that clarity with competing duties of social policy engineering."

Body	1. No more than 7 days (and no fewer than 3 day) prior to *arrival* date in Jamaica, you will need to complete the Travel Authorization. Each person in your group needs to do a separate authorization – you'll need passport, flight, and resort information. Click on this link, and answer No: https://travelauth.visitjamaica.com/ . That opens the travel authorization. You will be sent a one-time password. 1. Once the travel authorization is completed and submitted, you will get an email approving it and attaching the authorization. Download a copy to your phone AND print a hard copy. I know it says they'll accept the e-copy, but they always ask to see the hard copy. 2. No more than 72 hours prior to *arrival date* in Jamaica, you need to get a Covid 19 test done. IGNORE the public health testing sites. I know the sites imply that they do testing for travel but that is NOT the case. The best place we have found to get the testing done is Mayo Pharmacy on 4th Street. You can book the appointment online. You do have to pay for it. You may not be able to complete your online check-in because the ticket agent has to personally verify that she has checked your covid-19 test and your travel authorization unless your flight has been authorized for Delta's Verifly – in which case click on the delta link, enter your info, upload pics of your results and travel authorization, and you'll be good. About 3 days before your return, you'll get an email from Delta with a link to complete the CDC attestation. You'll also need to have covid-19 test results before checking in on the flight (or doing verifly). Liz

Let me know if there's anything else I need to do before the end of the year.

According to the CDC information, for testing to return to the USA: if your FIRST flight in your trip is delayed past the 1-day limit of testing due to a situation beyond your control (e.ge delays because of severe weather or aircraft mechanical problem) and that delay is **24 hours** or less past the 1-day limit for testing, you do not need to be retested. If the delay is more than **24 hours** past the 1-day limit, then you will need to be retested. See: https://www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html#anchor_1635127083. (emphasis in original)
The CDC page has a "last updated" date of December 17th.

Very well.
Perhaps you can find out the answer to this question:
We are required to have a negative COVID test within 24 hours to fly home.
We got the tests [all negative] but now our flight leaves tomorrow at 3:40pm, 24 hours later.
Do we have to have another test today to fly?
[the Delta app is useless, and the wait for a phone call is 688 minutes]
Can you find the answer for us somewhere?
Signed,
Exasperated in Montego Bay

According to the CDC information, for testing to return to the USA: if your FIRST flight in your trip is delayed past the 1-day limit of testing due to a situation beyond your control (e.ge delays because of severe weather or aircraft mechanical problem) and that delay is **24 hours** or less past the 1-day limit for testing, you do not need to be retested. If the delay is more than **24 hours** past the 1-day limit, then you will need to be retested. See: https://www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html#anchor_1635127083. (emphasis in original)
The CDC page has a "last updated" date of December 17th.

Very well.
Perhaps you can find out the answer to this question:
We are required to have a negative COVID test within 24 hours to fly home.
We got the tests [all negative] but now our flight leaves tomorrow at 3:40pm, 24 hours later.
Do we have to have another test today to fly?
[the Delta app is useless, and the wait for a phone call is 688 minutes]
Can you find the answer for us somewhere?
Signed,
Exasperated in Montego Bay

As you can see, our flight home for today has been cancelled.
We are now scheduled for tomorrow instead, so it looks like I will not be in the office tomorrow.
I have that one opinion that Ally says must be out before next week so I will be working on that today.
Let me know if there's anything else I need to do before the end of the year.

Hi Alice,

Do you think Wayne would be willing to participate in this? If so, would you mind asking him? Thanks!

I am writing to invite you to be featured in our paralegal association's (WDALA) newsletter called the *Summons*. The *Summons* is published four times a year (February, May, August, and November) and includes articles that are written by judges, attorneys, paralegals, and others on the subjects of substantive legal issues, court rules, current trends and recent developments, leadership, professional development, career development, mentoring, or articles of general interest to paralegals.

WDALA started a new feature in the *Summons* called "Get to Know Your . . . ". This feature is a fun way for our members to learn more about individuals in our legal community and their roles. The first edition of this new feature was published in the November 2021 issue of the *Summons* and we would like to put the spotlight on you for the February 2022 issue.

If you are interested, I have included a list of questions below for you to answer. (**Note:** I will need your responses no later than January 14, 2022). We ask that each participant answer all 5 questions in the first group and pick 5-10 bonus questions of their choice from the second group.

Please let me know if you would be willing to participate in this new piece in our *Summons* newsletter. We would be honored to showcase you in this fun, new feature!

I have two follow-up questions, if possible. During the hearing earlier this week, Judge Traynor suggested that North Dakota could intervene in the similar lawsuit of a group of other states that was recently appealed up to the Fifth Circuit. **Is North Dakota considering taking that step?** Also, the attorney general's statement noted that the state's request "could be ordered at a later time in the litigation" as the case proceeds. **Does the state need to pursue a motion for summary judgment, or take any other specific steps, in order to keep pursuing this case in Judge Traynor's court?** Thank you again for your help! The Court denied our request for now without prejudice, which means that as the case proceeds, our request could be ordered at a later time in the litigation. The Court specifically stated that "If the Defendants do not hold to their word and cancel any planned future sale, North Dakota may bring this action for review of the specifically cancelled sales once this Court has the benefit of a complete record." The Court also noted that there is already an existing nationwide preliminary injunction restraining the federal government from implementing its disputed "pause" on new oil and gas leasing on federal lands. North Dakota will be closely following the actions of the federal government agencies as they now proceed with the promised lease sales in February and thereafter. We are fully prepared to hold their feet to the fire and will not hesitate to bring the matter before the Court again as the circumstances warrant. **From:** Adam Willis <awillis@forumcomm.com> **Sent:** Friday, January 14, 2022 3:03 PM **To:** Brocker, Liz <lbrocker@nd.gov> **Subject:** Re: FYI ***** CAUTION: This email originated from an outside source. S/A Kluth responded and assisted with obtaining a search warrant and the eventual search of the house. The decedent was Lorri Prevost, born in 1961 and her husband was William Prevost, born in 56. The wife was feeling sick and apparently fell, hitting her head on the way down. The husband called for an ambulance while dragging his wife out of the home in the meantime. The female was determined deceased by a coroner on scene. There were wounds on the decedent's head that appeared odd but possible. The husband cooperated with law enforcement and the body was taken to a funeral home for the time being. S/A Kluth was going to talk with the ME's office this morning to determine whether an autopsy would be necessary as it appears much of the story matches up, just odd looking wounds on the decedent's head. .Supervisory Special Agent Patrick Lenertz ND Bureau of Criminal Investigation PO Box 1348 Minot, ND 58702 §44-04-18.3 PJLENERTZ@ND.GOV

The whole crew without hesitation cleaned up the biological material and blood so that the family wasn't retraumatized by dealing with he aftermath of their child's suicide. It is truly an honor to work with such great communities that care for one an other to that level. Shawn Sent from my iPhone Special Agent Shawn Banet North Dakota Bureau of Criminal Investigation §44-04-18.3 Office: 701-251-2993 **From:** Banet, Shawn J. **Sent:** Saturday, January 8, 2022 11:33:37 AM **To:** Grabowska, Lonnie <lgrabowska@nd.gov>; Miller, Casey J. <cajmiller@nd.gov>; Rummel, Arnie <arummel@nd.gov>; TK427 <tk427@nd.gov> **Subject:** LaMoure Co Suicide Thursday night S/A Kelly and myself assisted LaMoure County SO with the investigation of a suicide involving a 15 year old juvenile male. Upon arrival we were advised by the Sheriff that the in the evening 12.1-35-03 went to his room locking the door behind himself. After some time his mother Ann went to his door to ask him to come out to play a card game with the family. It was at this point that she discovered that the door was locked. Ann then asked 12.1-35- to unlock the door as per their family rules the kids were not allowed to lock their doors 12.1-35- did not respond. Ann went out to the kitchen to let her husband (Brett) know. It was at this time they heard a loud noise. Brett unlocked the door with a screwdriver and discovered 12.1-35- laying on the floor on top of his shot gun surrounded by a large pool of blood. Upon interviewing the family I was advised that the family wasn't into hunting or guns but 12.1-35- had expressed interest in wanting to start to bird hunt. The parents decided with 12.1-35- recent interest they would give him a shot gun for Christmas along with a box of bird shot. Further discussion reviled that 12.1-35- was a straight A student and an athlete. No recent break ups or apparent issues with his peers. Recently 12.1-35- did get into trouble for disrespecting his mother but the family did not disclose that it was anything beyond normal teenage issues. Preliminary searching of 12.1-35- cell phone has not reviewed any obvious red flags, beyond online searches (relating to suicide and suicide by shotgun) that 12.1-35- did prior to committing suicide. 12.1-35-03 brother Charlie did disclose that LaMoure high school does have a significant amount of bullying but was unaware of any major issues that would have been affecting 12.1-35-03 12.1-35- did leave a note next to his phone stating "Your Loss." Preliminary autopsy results are constant with what we saw on scene, ruling the death as a suicide with the manor of death being a single oral gunshot wound. After talking with the family they agreed to allow me to give our victim advocates their information to possibly offer some assistance in going through this process. The following is a brief synopsis of the family: Father Charles Brett Bowman (goes by Brett) Mother Ann Bowman Charlie Bowman (senior in HS) 12.1-35-03 victim, was a sophomore in HS) I will be pulling a case number on Monday and will have my initial report submitted early next week. If you have more questions feel free to let me know. Sent from my iPhone Special Agent Shawn Banet North Dakota Bureau of Criminal Investigation §44-04-18.3 Office: 701-251-2993

Further discussion reviled that 12.1-35- was a straight A student and an athlete. No recent break ups or apparent issues with his peers. Recently 12.1-35- did get into trouble for disrespecting his mother but the family did not disclose that it was anything beyond normal teenage issues. Preliminary searching of 12.1-35- cell phone has not reviewed any obvious red flags, beyond online searches (relating to suicide and suicide by shotgun) that 12.1-35- did prior to committing suicide. 12.1-35-03 brother Charlie did disclose that LaMoure high school does have a significant amount of bullying but was unaware of any major issues that would have been affecting 12.1-35-03 12.1-35-0 did leave a note next to his phone stating "Your Loss." Preliminary autopsy results are constant with what we saw on scene, ruling the death as a suicide with the manor of death being a single oral gunshot wound. After talking with the family they agreed to allow me to give our victim advocates their information to possibly offer some assistance in going through this process. The following is a brief synopsis of the family: Father Charles Brett Bowman (goes by Brett) Mother Ann Bowman Charlie Bowman (senior in HS) 12.1-35-03 victim, was a sophomore in HS) I will be pulling a case number on Monday and will have my initial report submitted early next week. If you have more questions feel free to let me know. Sent from my iPhone Special Agent Shawn Banet North Dakota Bureau of Criminal Investigation §44-04-18.3 Office: 701-251-2993

Apparently a bit ago the Williston School Board held an executive session. Some school board members leaked some info about the meeting to Tom. He ran the story on Williston Trending Topics and on Facebook. Last night, while at another school board meeting in the school office, BCI agent Chrissa Remus showed up with a search warrant for Tom's phone signed by Judge Johnson and seized his phone. She said she was authorized by the warrant to search his phone to identify who leaked the info. The AP just called about it. This could be a start of a firestorm. The warrant is a violation of our shield law for a start, and I'm not sure how BCI gets involved with school board matters? Last night we took the main individual, Joel Quinonez, and his girlfriend, Jaimie Garcia into custody. This involved a very in-depth safety plan due to the intelligence we had that Quinonez was armed and violent. When we confronted Quinonez in a hotel parking lot he attempted to reach for his firearm, but due the safety plan put together by Sgt. Orn, Sgt. Morris, and TFO Kyle Hinrichs, he was not able to retrieve it fast enough. It was a tense moment, but eventually he complied and was taken into custody. We were crammed in our takedown van, and also in the hotel room adjacent to Quinonez's, for approximately 7 hours but in the end it paid off. He had 2 stolen firearms in each pocket, and a 3rd firearm in his backpack. He was also in possession of 2.6 pounds of methamphetamine, 1 oz of heroin, and $6,121. After he was in custody he made some comments that were also concerning regarding killing whoever "snitched" on him. I would like to commend TFO Hinrichs, as well as the whole team who contributed, to this investigation (Including our Minnesota partners). Many hours went into this investigation. I believe the community is much safer with this individual in jail. I've attached some photos for you to review. This is an ongoing investigation. Thank you, Special Agent Shelby Franklin North Dakota Bureau of Criminal Investigation Cass County Drug Task Force Coordinator PO Box 9038 Fargo, ND 58106 §44-04-18.3

Bryan let us know today that he is going to be pulling a petition and running for the Ramsey County Sheriff. Bryan has discussed this decision with his family and the current Sheriff Steve Nelson. Sheriff Nelson is going to run again, but supports Bryan running also. Steve is ready to retire and has talked to Bryan for some time about being done due to health reasons. I wanted you to know Bryan will be running for the Office in Ramsey County and would do an amazing job! If elected, he will be a great proponent of the NDOAG and NDBCI. There is one big NEPA legal issue what hasn't be thought through by anyone on this also. I would need about an hour to lay out the evidence I have if you're interested? Busy today however.....Right now there is no reason for state funding commitments to this since part of the federal policy that it would take to make a go of it hasn't passed Congress yet and may not.....The Gov going so hard in public so early on this has stymied a critical staff review of relevant issues...Thx Ladd

Hydrogen hub, Coal Creek projects among those recommended for state funding

- AMY R. SISK

Proposals to establish a hydrogen hub in North Dakota and to retrofit Coal Creek Station with a carbon capture system are among the projects recommended for funding assistance via a new arm of state government focused on clean energy.

The eight voting members of the Clean Sustainable Energy Authority met Tuesday and recommended the state award a combined $28 million in grants and $135 million in loans to six applicants.

The three-member Industrial Commission, chaired by Gov. Doug Burgum, will have the final say over which projects receive funding. The commission is expected to make those decisions when it meets on Monday. Future funding rounds slated for 2022 are meant to allocate $17 million in remaining grant dollars and $115 million in loans.

The recommendations made Tuesday were unanimous except for one no vote on a proposal from the company Bakken Energy for money to support engineering and design work for its planned hydrogen hub.

Authority member Christopher Friez of North American Coal said unanswered questions surround the project, which aims to convert the Great Plains Synfuels Plant near Beulah for hydrogen production. The plant for decades has produced synthetic natural gas from coal mined at one of North American Coal's mines, along with a host of other products.

Others members of the energy authority supported the proposal, saying it could help put natural gas produced in western North Dakota's oil fields to use. Bakken Energy anticipates the market for hydrogen will grow substantially in future years. Its hydrogen could be used to fuel large trucks and other vehicles.

The authority recommended a $10 million grant and an $80 million loan to support the hydrogen project.

The panel also suggested the Industrial Commission award the following:

- A $7 million grant and a $40 million loan for Cerilion, which is developing a plant in Trenton that will convert natural gas into liquid fuels.
- A $7 million grant for the University of North Dakota's Energy & Environmental Research Center, which is working on the engineering and design of a system to capture the carbon dioxide emissions from Coal Creek, the state's largest coal-fired power plant. Carbon emissions released into the atmosphere contribute to climate change.
- A $3 million grant to Midwest AgEnergy for its carbon capture and storage project at Blue Flint Ethanol in McLean County.

Body

- A $1 million grant for Wellspring Hydro to source lithium and other products from saltwater produced in the oil fields. Lithium is used to make batteries and other products.

- A $15 million loan for Valence Natural Gas Solutions to expand the use of its mobile devices that capture natural gas that would otherwise be wastefully flared.

The energy authority recommended against funding Marathon Oil's proposal to install devices meant to reduce flaring at its oil field sites. Members indicated that they supported the project but did not want to help fund it because the technology is already commercially available. The goal of the Clean Sustainable Energy Authority is to promote the commercialization of emerging technology.

The Legislature established the energy authority this year, designating $25 million for grants to support projects, in addition to $20 million for hydrogen-related proposals. Lawmakers also made $250 million available in loans through a line of credit from the Bank of North Dakota.

Hydrogen

Leaders of the projects vying for funding each made pitches Tuesday to authority members, who spent considerable time learning about Bakken Energy's plan to establish a hydrogen hub in North Dakota centered around the synfuels plant.

Bakken Energy is working on a deal to purchase the facility from Basin Electric Power Cooperative, the current operator. The plant also produces fertilizer, which would continue even after it is converted.

The plant has faced financial trouble as it competes with cheap natural gas produced in places such as the Bakken amid the rise of horizontal drilling and fracking technology over the past 15 years.

"Producing natural gas from coal, we are having huge losses ... and all the byproducts can't even come close to mitigating those losses we are incurring," said Paul Sukut, who recently retired as Basin's CEO. "Over the last three years, we have incurred hundreds of millions of dollars in losses."

Basin leaders felt their options were either to shut the plant down entirely or close the coal gasification part of it and just produce fertilizer. Then along came Bakken Energy's hydrogen proposal.

"For Basin Electric it is a way better option," Sukut said. "We hold all those jobs. They stay in North Dakota."

The synfuels plant employs 525 people, all of whom are expected to retain their jobs. The workforce and the existing infrastructure at the facility are major reasons why Bakken Energy was interested in the site, CEO Mike Hopkins said.

The plant "has a great deal of the equipment and the processes that you need to produce clean hydrogen on a very large scale," he said, adding that it "also has the people who know how to operate and run such an operation."

"By acquiring and redeveloping the synfuels plant and by retaining this valuable workforce, we're in production faster and we have an unbeatable cost advantage," he said.

Bakken Energy plans to bring in natural gas from the western North Dakota oil patch to use for hydrogen production. The company is working with Mitsubishi Power Americas to develop its plans. Carbon emissions generated during hydrogen production would be captured and buried permanently underground.

It's unclear what the hydrogen proposal means for North American Coal's Freedom Mine, which supplies the plant with lignite used to make gas. No one at Tuesday's meeting provided a clear answer, though the topic came up.

Body	A group known as the Coal Conversion Counties Association, made up of counties, cities and school districts in the coal-producing parts of North Dakota, sent a letter to the governor last week expressing concerns about the hydrogen hub, particularly as the coal industry faces an uncertain future and it appears the hydrogen industry is banking on federal subsidies. "Those federal hydrogen rules and financial incentives are far from settled at this juncture, which is the primary reason we question whether it is premature for any entity to receive state financial support for this type of venture right now," association President John Phillips wrote. North American Coal spokesperson David Straley told the Tribune that the volume of coal used by Basin at the plant and by other facilities supplied by the mine determines the number of miners employed. Basin has not contacted the mining company to inform it of the power co-op's needs should the plant convert to hydrogen production, he said. The Freedom Mine also supplies Basin's Antelope Valley Station and Leland Olds Station with coal. Bakken Energy says the plant will continue to produce gas from coal until 2026, when hydrogen production is expected to begin. The deal to sell the plant has not closed, but it's expected to in 2023. Bakken Energy, meanwhile, is applying for a $1.5 billion loan guarantee through the U.S. Department of Energy for the proposed hub. It's also hoping the federal government will select the project as one of four hydrogen hubs to share in $8 billion made available through the recently passed infrastructure bill. Reach Amy R. Subject: Comment Letter Join Opportunity: Methane Regulations for Oil and Gas

***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

All,

Following up on our October letter concerning methane-related issues, West Virginia would invite you to join a comment letter concerning proposed regulations governing emissions of methane from sources in the oil and natural gas sectors. A draft is attached.

In short, EPA has proposed—at least in preamble form—a series of new source performance standards and emissions guidelines for existing sources in the oil and gas industries. As the letter explains, these acts overstep EPA's authority under Section 111 of the Clean Air Act, the very section at issue in *West Virginia v. EPA*. EPA has not made certain necessary endangerment and causation findings. They also appear to have given too much weight a Congressional Resolution Act resolution that disapproved of an early Trump effort in this space. Further, the proposed rule leads to a number of costs that outweigh benefits while also traipsing on state authority in this space.

The EPA has not yet proposed actual regulatory text. We expect a further "supplemental" rulemaking at some later time. Because we're not certain about the scope of comments that will be permitted in response to that supplemental rulemaking, we think it important to go on the record now.

Many of you joined our letter to Congress on proposed methane fees. We hope you'll again join us to resist the latest effort to overregulate these industries for the sake of one pollutant. The comment must be submitted by January 31, so we would ask that you letter us know whether you'd like to join no later than **January 31 at noon Eastern.**

Many thanks,
Michael

See <Lindsay.S.See@wvago.gov> **Subject:** Letter Opportunity - Methane Fee Good afternoon all, Our office has drafted a letter to relevant Senate leadership to raise some concerns about a "methane fee" included in the reconciliation bill that's currently under discussion. We're writing to invite you to join us. As you know, the "Build Back Better Act" is working its way through the House, while related discussions are happening in the Senate. The present iteration includes a punitive $1500-per-ton fee on methane emissions from oil and natural-gas facilities, which echoes a Senate proposal from earlier this summer to impose an $1,800-per-ton fee on methane. The fees are based on some extraordinarily complicated formulas. But more importantly, they would drive up energy prices on Americans who are already facing some high prices. We also think that this is an incrementalist effort to impose a broader carbon tax. We hope you'll sign on to the attached draft. Because congressional negotiations are ongoing (and in a constant state of apparent flux), we would like to send the letter no later than next Thursday. With that said, would you please let us know if you'd like to sign on by **6pm Eastern on Wednesday, October 13**? If you could include an appropriate e-signature with any response joining the letter, that'd also be appreciated. Thanks for considering this issue. And please don't hesitate to reach out if you have any comments, questions, or otherwise. Michael **Michael R. Attached is the Eighth Circuitâ€™s one-line order denying DOJâ€™s request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. Iâ€™m not sure if weâ€™ll eventually see an opinion from the court on this or if this is all weâ€™ll get, but the stay will remain in place for the time being. Now weâ€™ll have to see if the DOJ decides to ask SCOTUS for a stay.

All,

Attached is our draft response to DOJâ€™s stay motion filed in the Eighth Circuit. If you have any suggestions, please send them to me by COB today. Weâ€™re already at the max word limit, but weâ€™ll do our best to incorporate your suggestions, if any. We also may cut out some material to make room for a favorable Fifth Circuit opinion, should we get one today or tomorrow.

I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff Statesâ€™ Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 5).

Let us know if you have any thoughts. Thanks.

Subject: RE: ATTORNEY WORK PRODUCT - CONFIDENTIAL - Federal Vaccine Mandate for Health-Care Workers - Draft Complaint

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline weâ€™re up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others) Note that Iâ€™ve highlighted the most important ones:

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
  - How many
  - How large
  - Description of existing workforce shortages
  - What percentage of employees are unvaccinated
  - What percentage of funding comes from Medicare/Medicaid
  - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
    - Number of employees that they might lose
    - Anticipation on loss of services
    - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
  - How many
  - Confirm that they are state employees
  - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration
  - Description of existing workforce shortages
  - What percentage of employees are unvaccinated
  - What percentage of funding comes from Medicare/Medicaid
  - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
    - Number of employees that they might lose
    - Anticipation on loss of services
    - Anticipation of closures (whether certain divisions or entire facilities)

Body	Note that we have a few draft declarations, particularly declarations from healthcare facilities, that my colleague Josh can share if anyone wants to see them. Itâ€™d be good to have the declarations by Friday morning, but the earlier you can get them to us, the better. Itâ€™ll expedite the process and enable us to make better use of the facts. Thanks for everyoneâ€™s help with this. **From:** Osete, Jesus <Jesus.Osete@ago.mo.gov> **Sent:** Wednesday, November 10, 2021 10:30 AM **To:** Sauer, John <John.Sauer@ago.mo.gov>; 'McVey, David' <David.McVey@state.sd.us>; 'Langholz, Sam' <Sam.Langholz@ag.iowa.gov>; Shasserre, Joshua <Joshua.shasserre@nebraska.gov>; Campbell, Jim <Jim.Campbell@nebraska.gov>; 'Mills, Cori M (LAW)' <cori.mills@alaska.gov>; 'Nicholas Bronni' <nicholas.bronni@arkansasag.gov>; 'christopher.bond@doj.nh.gov' <christopher.bond@doj.nh.gov>; 'Ryan Schelhaas' <ryan.schelhaas@wyo.gov>; 'Swedlund, Paul' <Paul.Swedlund@state.sd.us>; 'Sagsveen, Matthew A.' <masagsve@nd.gov>; 'Laue, Brant' <Brant.Laue@ag.ks.gov> **Cc:** Green, Maddie <Maddie.Green@ago.mo.gov> **Subject:** RE: ATTORNEY WORK PRODUCT - CONFIDENTIAL - Federal Vaccine Mandate for Health-Care Workers - Draft Complaint Clean version attached. I will send you a couple of model declarations. To the extent you have cooperative Head Start officials, it certainly helps. I will send you something later today that you can use and feel free to modify. It would help to know who you have that would sign. State officials say something a different from Program Directors and Teachers.

Elizabeth,

Here is a standing/parties edit for South Dakota:

The State of South Dakota is a body politic created by the Constitution and laws of the State; as such, it is not a citizen of any state. This action is brought by the State in its sovereign capacity in order to protect the interests of the State of South Dakota and its citizens as *parens patriae*, by and through Jason R. Ravnsborg, the Attorney General of the State of South Dakota. The Attorney General is acting pursuant to his authority to appear for the State and prosecute any civil matter in which the State is a party or interested when, in his judgment, the welfare of the State demands. SDCL Â§1-11-1(2).

Thanks.

Going forward with this, you may want to coordinate with DPI counsel. I will be occupied with depositions for the abortion case for the next two days.

I will send you a couple of model declarations. To the extent you have cooperative Head Start officials, it certainly helps. I will send you something later today that you can use and feel free to modify. It would help to know who you have that would sign. State officials say something a different from Program Directors and Teachers.

Elizabeth,

Here is a standing/parties edit for South Dakota:

The State of South Dakota is a body politic created by the Constitution and laws of the State; as such, it is not a citizen of any state. This action is brought by the State in its sovereign capacity in order to protect the interests of the State of South Dakota and its citizens as *parens patriae*, by and through Jason R. Ravnsborg, the Attorney General of the State of South Dakota. The Attorney General is acting pursuant to his authority to appear for the State and prosecute any civil matter in which the State is a party or interested when, in his judgment, the welfare of the State demands. SDCL Â§1-11-1(2).

Thanks.

(The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. An expedited PI would likely be necessary in the absence of a TRO due to the deadlines for compliance. Please let me know if you are interested in joining. We may be filing this one in the Eastern District of Louisiana due to a high number of Head Start programs located there. It would be helpful to be able to add more statements related to the masking of 2 year olds. This one relates primarily to the vax req. I think it would help to have some teachers say it takes up important teaching time policing masking, its unhygienic for kids that young b/c they drop them and get their snot all over them and put them in their mouths or trade them, and the increased tension with the child inhibits the relationship with the teacher and child and interferes with learning. **From:** Murrill, Elizabeth **Sent:** Tuesday, December 14, 2021 7:59 AM **To:** Osete, Jesus <Jesus.Osete@ago.mo.gov>; 'Dewhirst, David' <David.Dewhirst@mt.gov>; Sauer, John <John.Sauer@ago.mo.gov>; 'Benjamin Flowers' <Benjamin.Flowers@OhioAGO.gov>; Andree.Blumstein@ag.tn.gov; Campbell, Jim <jim.campbell@nebraska.gov>; cori.mills@alaska.gov; Corrine.Youngs@atg.in.gov; daniel.bell@myfloridalegal.com; Drew Waldbeser <DWaldbeser@LAW.GA.GOV>; Smith, Emory <ESmith@scag.gov>; 'Fisher, Tom' <Tom.Fisher@atg.in.gov>; Galdieri, Anthony <Anthony.J.Galdieri@doj.nh.gov>; henry.whitaker@myfloridalegal.com; Higgins, Kevin A (LAW <kevin.higgins@alaska.gov>; Jeffrey.DeSousa@myfloridalegal.com; jessie.alloway@alaska.gov; Kane, Brian <brian.kane@ag.idaho.gov>; 'LaCour, Edmund' <Edmund.LaCour@AlabamaAG.gov>; 'Laue, Brant' <Brant.Laue@ag.ks.gov>; 'Lindsay S. The masking requirements for 2 year olds takes effect immediately. I am not sure how this is being handled currently in these programs, but the Head Start guidance did not require it until the 25th I don't think. (The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. An expedited PI would likely be necessary in the absence of a TRO due to the deadlines for compliance. Please let me know if you are interested in joining. We may be filing this one in the Eastern District of Louisiana due to a high number of Head Start programs located there. The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have, or will shortly, file a similar application in the Louisiana CMS case.

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have, or will shortly, file a similar application in the Louisiana CMS case.

Justice Kavanaugh has requested our response to the Governmentâ€™s stay application in the CMS case by December 30 (which, incidentally, is the same day he requested the federal governmentâ€™s response to our stay request in the OSHA case). We will aim to circulate a draft a head of time. Stay tuned.

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have filed a similar application in the Louisiana CMS case. We will start drafting a response, anticipating that SCOTUS will ask for something by early next week.

Attached is the Eighth Circuitâ€™s one-line order denying DOJâ€™s request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. Iâ€™m not sure if weâ€™ll eventually see an opinion from the court on this or if this is all weâ€™ll get, but the stay will remain in place for the time being. Now weâ€™ll have to see if the DOJ decides to ask SCOTUS for a stay.

All,

Attached is our draft response to DOJâ€™s stay motion filed in the Eighth Circuit. If you have any suggestions, please send them to me by COB today. Weâ€™re already at the max word limit, but weâ€™ll do our best to incorporate your suggestions, if any. We also may cut out some material to make room for a favorable Fifth Circuit opinion, should we get one today or tomorrow.

Thanks.

Recall that our motion to expedite proposed their opposition be due this Friday (with our reply brief filed on 11/22) to ensure we have a ruling from Judge Schelp by 5pm on 11/29. John, Jim, and I have conferred and are inclined to not consent to their proposal, as our proposal gives the judge time to consider briefing, hold an evidentiary hearing, and if we donâ€™t get relief, we have time to go to the Eighth Circuit for an injunction pending appeal. Please let us know if you disagree. Thanks. **Jesus A. I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff Statesâ€™ Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 5).

Let us know if you have any thoughts. Thanks.

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline weâ€™re up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others) Note that Iâ€™ve highlighted the most important ones:

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
  - How many
  - How large
  - Description of existing workforce shortages
  - What percentage of employees are unvaccinated
  - What percentage of funding comes from Medicare/Medicaid
  - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
    - Number of employees that they might lose
    - Anticipation on loss of services
    - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
  - How many
  - Confirm that they are state employees
  - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration

Note that we have a few draft declarations, particularly declarations from healthcare facilities, that my colleague Josh can share if anyone wants to see them. Itâ€™d be good to have the declarations by Friday morning, but the earlier you can get them to us, the better. Itâ€™ll expedite the process and enable us to make better use of the facts.

Thanks for everyoneâ€™s help with this.

All-

Many thanks to those of you who have already joined this Complaint challenging the health-care worker vaccine mandate. We are still planning to file by mid-morning Central time, so if your state wishes to join, please do let us know by 9:30 a.m. if possible. If you are considering it and need a little more time, please let me and Jim know that as well. If you join, we will plan to use the same signature block that we used for the federal contractor case, unless you send us a different signature block. Also, as in the contractor case, by joining, you are authorizing the Missouri and Nebraska attorneys who are entered to represent your state for the limited purpose of prosecuting this case. Of course, you may wish to enter as well on behalf of your own state, as many of you have done.

Thanks a lot, John

All-

Several of you have inquired about plans to file a lawsuit challenging the federal CMS vaccine mandate for health-care workers. Attached is a proposed draft complaint that Nebraska and Missouri have prepared, which we plan to file tomorrow morning in E.D. Mo. We hope to follow up promptly with a motion for preliminary injunction. Special thanks to Jim Campbell for a lot of incredibly fast heavy lifting on this draft over the last several days. Please let us know by tomorrow morning at 9:30 am Central if your State is interested in joining. Please copy me, Jim, and Jesus Osete of our office (ccâ€™ed) on your responses.

Thanks a lot, John Sauer

Justice Kavanaugh has requested our response to the Governmentâ€™s stay application in the CMS case by December 30 (which, incidentally, is the same day he requested the federal governmentâ€™s response to our stay request in the OSHA case). We will aim to circulate a draft a head of time. Stay tuned.

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have filed a similar application in the Louisiana CMS case. We will start drafting a response, anticipating that SCOTUS will ask for something by early next week.

Attached is the Eighth Circuitâ€™s one-line order denying DOJâ€™s request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. Iâ€™m not sure if weâ€™ll eventually see an opinion from the court on this or if this is all weâ€™ll get, but the stay will remain in place for the time being. Now weâ€™ll have to see if the DOJ decides to ask SCOTUS for a stay.

Recall that our motion to expedite proposed their opposition be due this Friday (with our reply brief filed on 11/22) to ensure we have a ruling from Judge Schelp by 5pm on 11/29. John, Jim, and I have conferred and are inclined to not consent to their proposal, as our proposal gives the judge time to consider briefing, hold an evidentiary hearing, and if we donâ€™t get relief, we have time to go to the Eighth Circuit for an injunction pending appeal. I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff Statesâ€™ Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 5).

Let us know if you have any thoughts. Thanks.

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline weâ€™re up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others) Note that Iâ€™ve highlighted the most important ones:

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
  - How many
  - How large
  - Description of existing workforce shortages
  - What percentage of employees are unvaccinated
  - What percentage of funding comes from Medicare/Medicaid
  - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
    - Number of employees that they might lose
    - Anticipation on loss of services
    - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
  - How many
  - Confirm that they are state employees
  - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration

Note that we have a few draft declarations, particularly declarations from healthcare facilities, that my colleague Josh can share if anyone wants to see them. Itâ€™d be good to have the declarations by Friday morning, but the earlier you can get them to us, the better. Itâ€™ll expedite the process and enable us to make better use of the facts.

Thanks for everyoneâ€™s help with this.

All-

Many thanks to those of you who have already joined this Complaint challenging the health-care worker vaccine mandate. We are still planning to file by mid-morning Central time, so if your state wishes to join, please do let us know by 9:30 a.m. if possible. If you are considering it and need a little more time, please let me and Jim know that as well. If you join, we will plan to use the same signature block that we used for the federal contractor case, unless you send us a different signature block. Also, as in the contractor case, by joining, you are authorizing the Missouri and Nebraska attorneys who are entered to represent your state for the limited purpose of prosecuting this case. Of course, you may wish to enter as well on behalf of your own state, as many of you have done.

Thanks a lot, John

All-

Several of you have inquired about plans to file a lawsuit challenging the federal CMS vaccine mandate for health-care workers. Attached is a proposed draft complaint that Nebraska and Missouri have prepared, which we plan to file tomorrow morning in E.D. Mo. We hope to follow up promptly with a motion for preliminary injunction. Special thanks to Jim Campbell for a lot of incredibly fast heavy lifting on this draft over the last several days. Please let us know by tomorrow morning at 9:30 am Central if your State is interested in joining. Please copy me, Jim, and Jesus Osete of our office (ccâ€™ed) on our responses.

Thanks a lot, John Sauer

Subject: RE: Head Start

Friends:
Attached is the working draft of the Complaint, which still has a few nits I need to run down. I apologize if I did not get in some of the edits. If I missed something you feel strongly needs fixing or changing, please email me. A couple of overall comments (hopefully nothing deal breaking):

- I moderated some adjectives/rhetoric as recommended by several states.
- I am reviewing the use of child/children/toddler throughout to make sure we use it appropriately in that sentence. Sometimes it makes sense to emphasize they are toddlers and sometimes its better to say child/children.
- Used "staff and volunteers" rather than "educators" and will search for any places we need to replace. (the rule actually goes beyond them so we point that out in places too.)
- Amped up some of the blended funds paragraphs and will have Declarations from Louisiana school Superintendents on that point. GA also had some State enforcement. I think we are in a good spot with regard to state impacts.
- I did not take out the references to harm to the toddlers due to the Toddler Mask Mandate b/c we are seeking a TRO/PI to halt that immediately. We have to show its harmful or we can't meet the legal standard. I will have a pediatrician to back up the allegations. And if we have a live PI hearing, I may put some teachers on the stand to talk about the practical effect in the classroom of this requirement.

PLEASE CHECK YOUR SIG BLOCKS.
Tyler and his rock stars are working on the PI memo. **IF YOU HAVE A DECLARATION COMING, PLEASE CC TYLER WHEN YOU SEND TO ME. A few of the Decs are attached for your reference (so far we are likely to have about 15). I also attached the NHSA summary of its survey after the rule came out. The Director of Gov't Relations returned my call tonight. He is checking on my request for someone to do a declaration that authenticates their letter to Becerra and this summary of their survey. If they don't, I may just attach it anyway b/c they sent it to Becerra.**

THANKS FOR YOUR PARTICIPATION. WE HAVE A REALLY STRONG COALITION. HOPING TO FILE THE WHOLE PACKAGE MONDAY.

Subject: RE: Head Start

Friends – attached is the most updated draft of the complaint. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.

Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

If I missed edits you suggested, please resend them to me.

The masking requirements for 2 year olds takes effect immediately. I am not sure how this is being handled currently in these programs, but the Head Start guidance did not require it until the 29th I don't think. (The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. An expedited PI would likely be necessary in the absence of a TRO due to the deadlines for compliance. Please let me know if you are interested in joining. We may be filing this one in the Eastern District of Louisiana due to a high number of Head Start programs located there. Friends:
Attached is the working draft of the Complaint, which still has a few nits I need to run down. I apologize if I did not get in some of the edits. If I missed something you feel strongly needs fixing or changing, please email me. A couple of overall comments (hopefully nothing deal breaking):

- I moderated some adjectives/rhetoric as recommended by several states.
- I am reviewing the use of child/children/toddler throughout to make sure we use it appropriately in that sentence. Sometimes it makes sense to emphasize they are toddlers and sometimes its better to say child/children.
- Used "staff and volunteers" rather than "educators" and will search for any places we need to replace. (the rule actually goes beyond them so we point that out in places too.)
- Amped up some of the blended funds paragraphs and will have Declarations from Louisiana school Superintendents on that point. GA also had some State enforcement. I think we are in a good spot with regard to state impacts.
- I did not take out the references to harm to the toddlers due to the Toddler Mask Mandate b/c we are seeking a TRO/PI to halt that immediately. We have to show its harmful or we can't meet the legal standard. I will have a pediatrician to back up the allegations. And if we have a live PI hearing, I may put some teachers on the stand to talk about the practical effect in the classroom of this requirement.

PLEASE CHECK YOUR SIG BLOCKS.
Tyler and his rock stars are working on the PI memo. **IF YOU HAVE A DECLARATION COMING, PLEASE CC TYLER WHEN YOU SEND TO ME. A few of the Decs are attached for your reference (so far we are likely to have about 15). I also attached the NHSA summary of its survey after the rule came out. The Director of Gov't Relations returned my call tonight. He is checking on my request for someone to do a declaration that authenticates their letter to Becerra and this summary of their survey. If they don't, I may just attach it anyway b/c they sent it to Becerra.**

THANKS FOR YOUR PARTICIPATION. WE HAVE A REALLY STRONG COALITION. HOPING TO FILE THE WHOLE PACKAGE MONDAY.

Subject: RE: Head Start

Friends – attached is the most updated draft of the complaint. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.

Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

If I missed edits you suggested, please resend them to me.

(The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. An expedited PI would likely be necessary in the absence of a TRO due to the deadlines for compliance. Please let me know if you are interested in joining. Everyone,

The district court just granted us a preliminary injunction in the federal contractor mandate case. I'm not sure why the court only ruled on the request for a preliminary injunction when the parties agreed to convert the preliminary injunction motion into a request for a permanent injunction. But a win is still a win. See attached.

The scope of the injunction appears to apply to all contractors in our respective states. Here's what it the court said: "Defendants are enjoined from enforcing the vaccine mandate for federal contractors and subcontractors in all covered contracts in Missouri, Nebraska, Alaska, Arkansas, Iowa, Montana, New Hampshire, North Dakota, South Dakota, and Wyoming."

Thanks to Michael Talent in Missouri for all his great work on this case.

Attached is the current draft of the supplement draft in the contractor mandate case. It is due today. We'd like to be ready to file in about four hours, around 3:00 Central, although we might delay that slightly depending on what DOJ does (since we have simultaneous filings). So if you could aim to send Michael and me any edits you have by 2:00 Central, that would be great. Thanks to Michael for the excellent work he has done on this. You'll notice that the intro hasn't

The district court indicated it will use them in issuing a permanent injunction/judgment on those claims. Attached is a near-final draft. We are still having some back-and-forth on DOJ on certain paragraphs, but believe the final product will look something like this. If you have any comments, please provide them Monday mid-morning, since the statement is due on Monday. Everyone,

The district court just granted us a preliminary injunction in the federal contractor mandate case. I'm not sure why the court only ruled on the request for a preliminary injunction when the parties agreed to convert the preliminary injunction motion into a request for a permanent injunction. But a win is still a win. See attached.

The scope of the injunction appears to apply to all contractors in our respective states. Here's what it the court said: "Defendants are enjoined from enforcing the vaccine mandate for federal contractors and subcontractors in all covered contracts in Missouri, Nebraska, Alaska, Arkansas, Iowa, Montana, New Hampshire, North Dakota, South Dakota, and Wyoming."

Thanks to Michael Talent in Missouri for all his great work on this case.

Attached is the current draft of the supplement draft in the contractor mandate case. It is due today. We'd like to be ready to file in about four hours, around 3:00 Central, although we might delay that slightly depending on what DOJ does (since we have simultaneous filings). So if you could aim to send Michael and me any edits you have by 2:00 Central, that would be great. Thanks to Michael for the excellent work he has done on this. You'll notice that the intro hasn't

Mike Schwab of the North Dakota Pharmacists Association reached out to me about speaking at a convention that they are planning to hold in March. He'd like me to discuss *Rutledge* and *Wehbi*. Mike also mentioned that Wayne might participate. Because of my role on behalf of the State, I would not agree to participate without your approval and Mark's. And because of the pendency of the litigation, I would only speak factually about the case. I would not make any predictions about how *Wehbi* affects other statutes. Hi all,

Here is a very slightly updated version of the amicus brief supporting the challenges to SEC's/Nasdaq's explicit race- and sex-based quotas, and last call for sign-ons.

Thanks to everyone that has joined so far. We are currently at 8 states: Arizona, Alabama, Alaska, Arkansas, Louisiana, Mississippi, Montana, and South Carolina.

We can accept sign-ons until **tomorrow, Monday, December 27 at 5pm EST**. Please also let us know if you have any questions, concerns, or edits.

Sincerely,
Drew

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here.

For greater detail on the challenged rule, we are attaching the opening brief of one of the challengers as well.

We will be able to accept sign-ons until **December 27 at 5pm Eastern.**

Sincerely,
Drew

The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. Reg. 44,424 (Aug. 6, 2021), https://www.federalregister.gov/documents/2021/08/12/2021-17179/self-regulatory-organizations-the-nasdaq-stock-market-llc-order-approving-proposed-rule-changes-as. On August 6, 2021, the Securities and Exchange Commission—on a 3-2 party-line vote—approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. On August 10, 2021, the Alliance for Fair Board Recruitment (AFBR) filed a Petition for Review of the SEC's action in the Fifth Circuit. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here.

For greater detail on the challenged rule, we are attaching the opening brief of one of the challengers as well.

We will be able to accept sign-ons until **December 27 at 5pm Eastern.**

Sincerely,
Drew

Thanks for the opportunity to weigh in, Matt. We were generally not familiar with this particular NASDAQ rule-making, apparently approved by the SEC this past summer, for improved racial and gender diversity on the corporate boards of listed companies. It does not appear to be an issue that has generated discussion among state securities regulators which is understandable, given the limited regulation we would have over stocks traded on the Exchanges.

We wouldn't take a position on whether the Commission exceeded its authority in this case.

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern.** Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. Reg. 44,424 (Aug. 6, 2021). https://www.federalregister.gov/documents/2021/08/12/2021-17179/self-regulatory-organizations-the-nasdaq-stock-market-llc-order-approving-proposed-rule-changes-as. On August 6, 2021, the Securities and Exchange Commission—on a 3-2 party-line vote—approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. On August 10, 2021, the Alliance for Fair Board Recruitment (AFBR) filed a Petition for Review of the SEC's action in the Fifth Circuit. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern.** Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us

Body	know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here. For greater detail on the challenged rule, we are attaching the opening brief of one of the challengers as well. The amicus brief would support challenges to SEC approval of a NASDAQ proposed "diversity" requirement. That requirement (discussed in greater detail below) adopts one of the crudest and most odious tool available to the government: race- and sex-based quotas. All companies that fail to satisfy those quotas would be compelled to make statements explaining (i.e., apologizing for) their failure to do so. Challenges to SEC's approval have been consolidated in the Fifth Circuit. One opening brief challenging the rule has already been filed (attached). Another will be filed on December 20, so our amicus brief will be due December 27. Because of the holiday season, we wanted to give everyone a heads up that this brief will be coming. We will be able to accept sign-ons until **December 27 at 2pm Eastern.** Please feel free to reach out to us with any questions or suggestions. Sincerely, Drew **Nasdaq Quota Requirement Overview:** On December 1, 2020, the Nasdaq proposed to adopt a series of rules related to corporate board "diversity." After taking comments, Nasdaq submitted an amended proposal to the SEC in February which had three main components, which apply to every Nasdaq-listed firm (minus some exceptions for small and foreign firms): (1) to have, or explain why it does not have, at least one director who "self-identifies her gender as a woman;" (2) to have, or explain why it does not have, at least one director who self-identifies as "Black or African American, Hispanic or Latinx, Asian, Native American or Alaska Native, Native Hawaiian or Pacific Islander, or Two or More Races or Ethnicities" or as "LGBTQ+," which is defined as "lesbian, gay, bisexual, transgender or as a member of the queer community;" and (3) to provide statistical information on directors' sex, race, and sexual orientation status. *See* Securities and Exchange Commission, Order Approving Proposed Rule Changes, as Modified by Amendments No. 1, 86 Fed. Reg. 44,424 (Aug. 6, 2021). https://www.federalregister.gov/documents/2021/08/12/2021-17179/self-regulatory-organizations-the-nasdaq-stock-market-llc-order-approving-proposed-rule-changes-as. On August 6, 2021, the Securities and Exchange Commission—on a 3-2 party-line vote—approved Nasdaq's proposal without modification, finalizing these requirements as Nasdaq rules. In response to objections that this proposal violated the Constitution, the SEC adopted Nasdaq's argument that the rule was not subject to the Constitution because Nasdaq was not a state actor. https://www.federalregister.gov/d/2021-17179/p-301. On August 10, 2021, the Alliance for Fair Board Recruitment (AFBR) filed a Petition for Review of the SEC's action in the Fifth Circuit. Additional petitioner National Center for Public Policy Research (NCPPR) filed in the Third Circuit, and was transferred to the Fifth Circuit on October 28, 2021.

North Carolina Department of Revenue*, No. 407-A-21, in the North Carolina Supreme Court. The relevant question presented is whether the dormant Commerce Clause bars states from asserting and collecting sales taxes on transactions originating from out-of-state and delivered to in-state consumers. We expect the North Carolina AG to argue that *Dilworth* formalism—which allows use taxes, but not sales taxes on such transactions—is no longer good law. States have a critical interest in protecting their sovereign authority to fairly tax interstate commerce and to preserve the gains they received from the Supreme Court's decision in *South Dakota v. Wayfair*, 138 S. Ct. 2080 (2018). The District's brief will therefore make two related arguments: *First*, the brief will argue that reaffirming Dilworth formalism would be inconsistent with the Supreme Court's decision in *Wayfair* and would reintroduce many of the policy concerns that animated the Court's abrogation of the physical-presence rule. *Second*, the brief will highlight the particular concerns raised by the lower court's decision in states with destination-based sourcing schemes. The District and at least 39 states have tax-sourcing statutes that identify the location of the "sale" as the place where the goods are delivered. Allowing courts to override such statutes and conclude that there is no transactional nexus absent physical purchase within the taxing state would undermine states' sovereign taxing authority and contradict the fundamental principle that "the modes adopted [by the States] to enforce the taxes levied should be interfered with as little as possible." *Dows v. City of Chicago*, 78 U.S. 108, 110 (1871). As we craft and refine the brief, **it would be helpful to know the following by January 7** (if you happen to have responsive information): 1. Does your state have a destination-based sourcing scheme? If so, a citation to the specific provision of the state tax code would be ideal. 2. In the wake of *Wayfair*: 1. Is your state assessing and collecting sales taxes on out-of-state companies that deliver goods to in-state consumers? 2. Has your state faced *Dilworth*-based challenges such as the one at issue here? Please contact caroline.vanzile@dc.gov and norah.rast@dc.gov with your responses. We will circulate a draft brief on or around **January 14**, in advance of the **January 21 join deadline**. Many thanks in advance for your help. With appreciation, Caroline S. Iowa's state agency is considering its options, including the possibilities of (1) announcing in advance that it will not adopt the ETS because it's no more effective than existing state standards or (2) declining to take action because of the pending litigation. I'm curious if those of you from other state plans states have considered how to handle the deadline or any potential impacts of those decisions on this litigation. Do not click links or open attachments unless you know they are safe. ***** Federal OSHA has informed State Plan states that we need to provide notice of whether we will be adopting the ETS by 1/7/22, the same date as oral argument. Iowa's state agency is considering its options, including the possibilities of (1) announcing in advance that it will not adopt the ETS because it's no more effective than existing state standards or (2) declining to take action because of the pending litigation. I'm curious if those of you from other state plans states have considered how to handle the deadline or any potential impacts of those decisions on this litigation. I haven't been able to find any news reports of any other states announcing their intentions yet. Body	I can provide more details tomorrow, but we may use them in a deposition, a dispositive motion, or at trial, to rebut and contradict discovery responses made by Keystone. Long story short, the Department terminated its contract with Keystone Testing, in part because Keystone never provided insurance coverage for errors and omissions. This was a requirement of the contract. Keystone claims in its discovery responses that it was "self-insured", and such self-insurance was adequate for purposes of the contract. We disagree of course, and have solid legal support for our position. Keystone answered in its discovery responses, in relation to its position that it was self-insured, that it could sell/liquidate its equipment in North Dakota to pay for any claim for errors and omissions. One record disclosed by Keystone shows that Commerce made a $300,000 loan to Keystone for equipment to be used in North Dakota. We have verified the existence of this loan with Commerce. The document also indicates that Commerce had a first lien on the equipment purchased with Commerce funds. Based upon these documents, it is my opinion that Keystone's answers regarding the use of the equipment for self-insurance are not accurate. We would like to see the entire file to make sure we have an accurate picture of the loan, the requirements of the loan, and payments. We, or Jane, can provide more details if you want… **From:** Stenehjem, Wayne K. <wstenehjem@nd.gov> **Sent:** Wednesday, January 5, 2022 3:58 PM **To:** Sagsveen, Matthew A. <masagsve@nd.gov> **Subject:** RE: Department of Health Subpoena/Records in custody of Commerce Department Right **From:** Sagsveen, Matthew A. <masagsve@nd.gov> **Sent:** Wednesday, January 5, 2022 3:49 PM **To:** Stenehjem, Wayne K. <wstenehjem@nd.gov>; Kelsch, Mary Kae M. <mkelsch@nd.gov> **Subject:** RE: Department of Health Subpoena/Records in custody of Commerce Department Are you asking why we need the records? **From:** Stenehjem, Wayne K. <wstenehjem@nd.gov> **Sent:** Wednesday, January 5, 2022 3:39 PM **To:** Kelsch, Mary Kae M. <mkelsch@nd.gov>; Sagsveen, Matthew A. <masagsve@nd.gov> **Subject:** RE: Department of Health Subpoena/Records in custody of Commerce Department And why is defendant DOH serving subpoenas to Commerce? **From:** Kelsch, Mary Kae M. <mkelsch@nd.gov> **Sent:** Wednesday, January 5, 2022 3:36 PM **To:** Sagsveen, Matthew A. <masagsve@nd.gov>; Stenehjem, Wayne K. <wstenehjem@nd.gov> **Subject:** RE: Department of Health Subpoena/Records in custody of Commerce Department What legal basis are they giving for the confidentiality? **From:** Sagsveen, Matthew A. <masagsve@nd.gov> **Sent:** Wednesday, January 5, 2022 2:40 PM **To:** Stenehjem, Wayne K. <wstenehjem@nd.gov> **Cc:** Kelsch, Mary Kae M. <mkelsch@nd.gov> **Subject:** Department of Health Subpoena/Records in custody of Commerce Department Wayne, I want to let you know that the Department of Commerce possesses certain confidential records that are relevant to a lawsuit filed against the Department of Health ("DOH"). Hi everyone—

DOJ moved to stay in our case in Arizona as well. The judge denied the motion. Attached is our response brief, in case it might be of use to any of you. Also attached is the minute entry denying the motion, in case you want to file as a Notice of Supplemental Authority to show an example of a stay being denied in a contractor mandate case.

James

Friends,

Judge Baker just issued a nationwide injunction in our federal contractor mandate case. We're still reviewing, but wanted to make you aware. Also, I'm adding Georgia's new SG, Stephen Petrany, to this chain.

Hi everyone—

DOJ moved to stay in our case in Arizona as well. The judge denied the motion. Attached is our response brief, in case it might be of use to any of you. Also attached is the minute entry denying the motion, in case you want to file as a Notice of Supplemental Authority to show an example of a stay being denied in a contractor mandate case.

James

Friends,

Judge Baker just issued a nationwide injunction in our federal contractor mandate case. We're still reviewing, but wanted to make you aware. Also, I'm adding Georgia's new SG, Stephen Petrany, to this chain.

Best,
Drew
